Motorcyclist Dies in Crash At City's Edge

Clifford Clark Killed In Headon Collision; Auto Driver Charged

A motorcycle rider became Marion County's second traffic fatality of the weekend, the 17th this year, when he was killed in a head-on collision with an automobile at 12:10 a.m. Sunday on W. Fairground St. just outside the city.

Killed was Clifford L. Clark, 35, of the Werley Hotel.

The driver of the automobile, Robert Massie, 40, of Morral, was charged by state highway patrolmen with second degree manslaughter and driving while intoxicated.

Killed Instantly

Dr. M. M. Weinbaum, acting coroner, said Clark was killed instantly. A fractured skull, internal injuries and shock were the cause of death.

A passenger in the Massie automobile, Miss Lena Nicolosi, 34, of 159 Waterloo St., received a fractured right ankle. She was taken to Marion City Hospital and released from there yesterday afternoon.

Auto Driver Injured

Massie received a cut nose and a bruised left leg and knee.

The motorcycle was practically demolished, and the automobile was damaged in the front end.

This morning Massie was being held in city jail pending arraignment which will be held after an attorney is secured for the defense.

At the time of the accident, which occurred near the Pennsylvania railroad crossing, Massie was west-bound, while Clark was heading east.

Daniel King, 34, was Marion's first traffic fatality this weekend when he died of injuries received when a car in which he was riding hit the side of a Pennsylvania freight train on County Road 195 Friday night.

Born in Kentucky

Clifford L. Clark was born Feb. 10, 1918, at Russell, Ky., a son of Thomas and Lydia Ann Abrams Clark. A veteran of World War II, he served as a private first class in the infantry overseas in the Asiatic-Pacific area, taking part in battles on Luzon and New Guinea. Coming to Marion two years ago from Ashland, Ky., he was an employe of the Marion Power Shovel Co.

Surviving are sisters, Miss Beatrice Clark of Columbus, Mrs. Theodore Lane of Nelsonville, and Mrs. Arthur Ball of Romulus, Mich.

The body was sent Sunday night from the M. H. Gunder Sons Funeral Home on W. Center St. to the Carman Funeral Home at Russell, Ky., where funeral services will be held Tuesday. Burial will be in Carolina Cemetery in Greenup County, Ky.

Three Injured in City

Three persons were injured in 10 accidents reported by police over the weekend.

William Osbun, 84, of 179 N. State St., was taken to City Hospital after being struck by a car at N. Main St. and George St., Saturday at 3:39 p.m. According to police reports, he was struck by a car driven by John E. Stevens Jr., 22, of 352 E. Mark St.

Osbun suffered a bruised left leg and a cut on his head. Stevens was cited to appear in Municipal Court today on a charge of driving with insufficient brakes. He was driving west on George St. and told police he was going at a slow rate of speed when he hit the man.

Glenn Dovens, 14, of 1119 S. Prospect St. was taken to City Hos-

State Office Requires Police Accident Report

Police were notified today that in the future they must file a copy of all accidents investigated by them with the newly-formed Department of Highway Safety in Columbus.

The order, which was issued by the department, and relayed to police by the highway patrol, states that police investigating an accident shall file their report within five days.

PRESIDENT AND HOSTS. President Eisenhower poses with his hosts at their home near Mission, Texas, before attending church services. The governor of Texas, Allan Shivers, and his wife are entertaining the President at their home in Sharyland. With them is the governor's daughter, Maryalice, 6. Eisenhower was scheduled to meet with the president of Mexico at Falcon Dam, some 70 miles west of Mission, for the joint dedication of the international structure on the Rio Grande river.

Ike Dedicates Huge New Dam in Texas

FALCON DAM, Tex (AP)—President Eisenhower joins the President of Mexico today in dedication a vast new and unique international dam.

And along both sides of the United States-Mexican border the citizenry turned out in colorful numbers to cheer the visiting chief executives.

The occasion was the formal opening of a project new in inter-American affairs — Falcon Dam, the first of three to be built jointly by the United States and Mexico to make power, stop floods and irrigate hundreds of thousands of acres.

Fiesta Mood Prevails

In southwest Texas and in old Mexico the mood was one of fiesta for this long-awaited day as Eisenhower and Mexican President Adolfo Ruiz Cortines came here for the long-awaited event.

After the speechmaking the five-mile-long dam, largest international project of its kind in the world, was to churn into motion an eventual 250 million kilowatt hours of electric power, along with its storage and irrigation benefits.

Today's program called for the two Presidents to meet part way across Falcon Dam and dedicate it.

But before that Eisenhower was to cross into old Mexico to be the guest of Ruiz Cortines at a fiesta in Nueva Guerrero, a new town built to replace the ancient village that will be covered by Falcon Dam's vast reservoir.

Some 3,000 persons were expected to jam onto the dam itself for the dedication ceremonies. Thousands more were expected to mass at either end.

President To Speak

Eisenhower scheduled an informal speech to those on the United States side immediately after the formal dedication.

The President was scheduled to go by automobile to Laredo, 75 miles up the river, after the dedication to board a plane and return to Washington.

The President yesterday worshipped in a Presbyterian church at Mission, Tex., and relaxed at the home of Texas Gov. Allan Shivers.

After church, he stopped by for a visit with a polio victim, Tommy Robertson, 15.

Carrier Blast Probe Opened

Board Checks Leyte Explosion Killing 36

BOSTON (AP)—A three-officer naval court of inquiry assembled today for an immensely complex task—to discover, if it can, what caused the explosions and flash fire that killed 36 men aboard the aircraft carrier Leyte Friday.

The court is headed by Rear Adm. Delbert S. Cornwell.

An inspection of the fire-blackened area four decks below the landing deck, on the carrier's port side forward, was one of the first items of business.

The court's task was complicated by the fact that the best witnesses, the men closest to the explosion, apparently were killed either by the blast or the searing flash fire that raced through that area of the vessel.

As the formal inquiry began, 30 injured lay in hospitals, many of them almost covered by bandages over their burns. A large proportion were servce personnel, both officers and enlisted men, but there were also naval shipyard civilian workers and several Boston firemen.

Though the Navy officials declined to speculate in advance of its inquiry, investigators were reported to have determined the explosions began in the catapult room four decks down, where a hydraulic fluid containing 200-proof alcohol is used under heavy pressure for quick launching of aircraft.

Official Rules Counties Can't License Games

Counties lack authority to license non-gambling pinball machines or other mechanical amusement devices, Attorney General C. William O'Neill said today in an informal opinion.

The opinion went to Prosecutor Ralph E. Carhart of Marion County.

A Marion County grand jury recently recommended county-wide extension of Marion's city licensing system for such devices.

This recommendation was the only action taken by the jury after a lengthy investigation of gambling activities in the county. The jury launched its inquiry after Carhart said his office had received reports of gambling in the county.

When the investigation began, Sheriff Glenn Obenour ordered all pinball machines and punch boards removed from public places throughout the county. His order did not affect establishments in the city, where pinball machines are licensed.

O'Neill said municipalities derive their authority to license such devices from the home rule provision of the state Constitution that grants cities broad powers to run their own affairs.

The attorney general said counties derive their authority from the Legislature and that the Legislature never has given counties such licensing authority.

Russia Asked To Big 3 Talk In November

Offer Made To Discuss Security of Europe; London Session Ends

LONDON (AP)—The Big Three foreign ministers have invited Russia to meet with them next month to discuss Germany, Austria and European security. Winding up a three-day conference last night they also took dramatic steps to deal with all other major tensions threatening the world.

The three—U. S. Secretary of State Dulles, British Foreign Secretary Eden and French Foreign Minister Bidault—also invited Italy and Yugoslavia to a five-nation meeting on the Balkan powder keg issue of Trieste.

Korea Discussed

During these intensive meetings the top Western diplomats also discussed Korea, the possibility of a later meeting of the Western chiefs of state with Soviet Premier Malenkov, the turbulent Middle East questions with emphasis on the latest Israeli-Jordan border flare-up and France's seven-year war against the Reds in Indochina.

The three were reported also to have agreed secretly on a new Korean peace conference plan aimed at ending the present deadlock over its makeup.

There was no official confirmation of this report by a diplomatic informant that the three had agreed on a compromise proposal calling for a seven-nation round-table peace conference including the United States, Britain, the Soviet Union, France, Red China, and North and South Korea. The informant indicated this was aimed at countering Communist demands for the inclusion of a number of neutral nations

Possible Malenkov Meeting

There also was an unconfirmed report that Britain's Prime Minister Churchill had sounded out Dulles and Bidault on how the American and French governments would feel if he should seek a meeting alone with Soviet Premier Malenkov.

At the end of the meetings, Dul-

Big 3's Trieste Action Leaves Tito Unmoved

BELGRADE, Yugoslavia (AP) — Yugoslavs were puzzled today over the latest Big Three pronouncement on the explosive Trieste dispute; but their leaders stood fast in their threat to march in if Italian troops move into Zone A.

There still was no official comment on the West's invitation to Yugoslavia and Italy to meet with the United States, Britain and France to discuss the burning Trieste question.

Yugoslavia's chief U. N delegate, Leo Mates, said yesterday in Washington he thought his gov-

U.N. Security Council Meets Over Palestine

Special Session Called As Big 3 Denounce Israeli Border Killings

UNITED NATIONS (AP)—The U.N. Security Council was confronted today with a Western Big Three contention that Israeli-Jordan border killings threatened peace in the Middle East—and Israel's claim that it is Jordan's fault.

The 11-nation body was scheduled to meet in urgent session at the request of the United States, Britain and France.

Denounce Attack

The three nations called for the U.N. action after sharply denouncing an Israeli attack last Wednesday on the Jordan border village of Kibya. The Jordan government charged the entire village was wiped out, with 66 Arabs killed and 9 wounded.

In defense of her position in the dispute, Israel prepared her own appeal for U. N. action. She seeks an inquiry into all border incidents and violations of the 1949 Israel-Arab armistice agreements.

Today's council session was called primarily to place the Arab-Jewish dispute on the body's agenda and to invite Gen. Vagn Bennike, Danish head of the U. N. truce observation team in the Middle East trouble spot, to make a personal report. This had been suggested by the Big Three.

Hot Debate Forecast

A full-blown debate was looked for later this week.

Israeli officials did not deny the Kibya attack. However, Israel's U. N. delegation issued a statement last night saying the incident was "a regrettable culmination of a long series of events marked by a tragic and intolerable loss of Jewish life" under armed attacks from Jordan.

Since 1950, the Israeli statement said, the Jews had suffered 421 killed and wounded, 128 cases of sabotage, 866 cases of armed attacks and 3,263 cases of robbery.

United Appeals Workers Give First Reports

Workers in the 1953-54 Marion County United Appeals Campaign will make their reports at a "dutch" dinner tonight at 6 o'clock at the YMCA.

The first report meeting since the drive got under way last Monday, a good turnout is expected, Chairman Cutler A. McGrew states.

This year's goal of $170,462 will finance the work of the United Appeals agencies, The Marion County Chapter of the American Red Cross, Marion County Unit of the American Cancer Society, Marion Community Foundation and the Marion County Heart Association.

Mrs. W. A. Dennis, vice chairman of the Women's Division, will preside, and the invocation will be by Rev. L. Harrison Ludwig, pastor of Salem Evangelical and Reformed Church. Speaker will be Henry A. Krigbaum and a community sing will be directed by William Cowles.

The "saleswomen" will take the spotlight when the one turning in the largest amount in pledges is presented an orchid.

St. Louis Police Start Probe of Discrepancies

ST LOUIS (AP)—An investigation of alleged discrepancies in police reports on the arrest of the Bobby Greenlease kidnapers and recovery of half the ransom money was started last night on orders by the St. Louis Board of Police Commissioners.

The board ordered all reports checked and "all persons connected with the arrest" questioned again following published reports that the FBI had found a number of discrepancies in the police account of the case.

FBI agents, still seeking $300,000 in missing ransom money, refused to comment on this report and on reports they have questioned the two police officers who arrested

Plane Crashes, Takes 2 Lives; 4 Others Hurt

Steward Credited With Cutting Toll At New York Port

NEW YORK (AP)—An Eastern Airlines Constellation with 27 persons aboard crashed in flames after taking off from fog-shrouded Idlewild Airport early today for Puerto Rico.

Two of 22 passengers aboard the four-engined craft were killed. At least four others were injured critically and six more were treated for burns and released. Early reports had three passengers dead.

Two of the five crewmen were injured.

Heroism Cited

A steward who plunged through flames to open a fuselage door after the passengers were trapped inside the plane was credited with keeping the toll from going higher.

The takeoff came after a delay of more than an hour. The plane was only about 20 feet above the runway when it shuddered and plunged through a grassy marsh about one-half mile from Jamaica Bay.

"It did not hit the ground very hard," said Reinaldo Betancourt, 38, one of the survivors. "But then one of the motors on the right burst into flames."

"Flames were shooting upward and the doorway was just a mass of flames," said Leo Gore, 33, another of the passengers who was trapped inside the fuselage.

Heat Terrific

"The heat was terrific, but the steward just leaped through the flames and opened the door.

"If it hadn't been for him, nobody would have had the nerve to jump out."

The steward was listed as Al Foley, with no home address given. He was hospitalized with burns of the hands and face.

The dead were identified as George Fisher, of Hartford, Conn., and Dr. Juan Boyondos. No address was available for Dr. Boyondos.

At least four of the injured were reported in serious condition and several others were listed as serious.

Pickens Will Be Tried By Three-Judge Court

Willie Pickens, 22, of 505 Jefferson St., who was indicted on two counts of manslaughter, will be tried by a three-judge court Thursday in Common Pleas Court.

Judge Paul D. Smith granted Pickens' request for the three-judge hearing this morning after Pickens waived his right to a trial by jury.

The manslaughter charges resulted from the July 19 deaths of H. W. Crissinger, 71, and Harry Mathias, 56, following a traffic collision of automobiles driven by Pickens and Dan Mathews, 33, all of Marion. A third man, Harold B. Harper, 49, died Aug. 18 of injuries received in the accident.

Pickens is represented by Frank Wiedemann.

Judges to sit on the bench for his trial are W. T. Owen of Urbana, Leroy Allen of Marysville, and Judge Smith.

Czech, Polish Supervisors Quit Meeting

Refusal by Indian Guards To Use Force On Koreans Is Issue

PANMUNJOM (AP) — Beaten in their demand that Indian troops force defiant Korean War prisoners to listen to Red persuasion teams, the two Communist delegations reportedly stormed out of a Korean repatriation commission meeting today.

The Polish and Czech walkout—reported by reliable sources—threatened a collapse in the tension-ridden interviewing of 23,400 anti-Communist prisoners who refuse to return to their homelands.

The sources, who declined to be named, said the Swedish, Swiss and Indian members of the five-nation commission sided together.

All Activity Stalled

The walkout stalled all activity of the commission, at least temporarily.

A commission spokesman said there would be no explanations Tuesday. The Reds had refused to interview Chinese instead of the North Koreans they had asked for. A 1½-hour repatriation commission debate on the matter was ended by the walkout of Czechs and Poles, an informed source said.

The North Koreans have stubbornly refused to move out of their compounds to meet with Red explanation teams.

Only 19 of 921 Chinese interviewed asked for repatriation.

Six North Koreans who requested repatriation were turned over to the Reds, raising to 131 the number of POWs who have returned to Red rule without first meeting with the Red explainers.

In all, some 22,400 anti-Red POWs are in custody of the repatriation commission.

Differ on Policy

Communist correspondent Wilfred Burchett, who often echoes official Red policy, said one of the main disputes between the Reds and the repatriation commission was over who has the right to determine explanation plans.

Burchett said the Communists believe they have the right to determine whether they will explain to Chinese or North Korean captives and they also want to say when they will talk to the POWs.

Reds Consent To Meeting at Panmunjom

TOKYO (AP) — The Communists agreed today to a U.N. proposal for a meeting at Panmunjom next Monday to make plans for the Korean peace conference but they insisted on the right to decide there what nations will take part.

The United States and its Allies have insisted just as strongly in earlier notes that the preliminary meeting settle only the time and place of the conference.

A Peiping radio broadcast heard here said the Red note—signed by the leaders of Communist China and North Korea—was sent to the United States through neutral Sweden.

The Red note came as there were reports from London that the Western foreign ministers had agreed secretly on a new and entirely different proposal for the conference membership — the Big Five and North and South Korea.

Under this plan, Red China rather than Nationalist China would be included among the Big Five. The others are the United States, Britain, France and Russia.

The earlier Allied proposals for the conference called for only the belligerents — with Russia sitting in on the Communist side if invited by the Reds.

The Reds had asked for a round table meeting, with five-nations—Russia, India, Pakistan, Thailand, Burma—sitting in as neutrals.

The latest Red note as broadcast by Peiping capped a long exchange of messages between the Allies and the Communists on the conference.

Charter Backers Say City's Government Outdated

This is the second in a series on the home rule charter question which will appear on the November ballot in Marion.

By CHARLES L. MARTIN

"Everybody talks about the weather but nobody does anything about it." This statement, applied to city government, finds exception in the civic activity of many Ohio communities in connection with the home rule charter plan of municipal government.

The Marion Non-Partisan Home Rule Charter Study Committee reports that since the plan first became available in Ohio in 1912 more than 30 cities have adopted some form of home rule government and the number os growing each year.

—:—

OVER A PERIOD of years, suggestions have been made that the home rule system ought to be given a tryout in Marion, but until this year no steps were taken to place the issue before the voter.

The home rule proposal will be on the ballot Tuesday, Nov. 3. If approved it will not mean a vote to change city government at this time. It will merely authorize a 15-member commission to study home rule charters, then prepare and submit one tailored to Marion's needs to the voters in the 1954 election.

—:—

FOREMOST AMONG the reasons given in support of the charter movement is belief that the present system of city government does not measure up to the growth and progress of the community.

In a prepared statement the committee claims that while most other phases of community activity have progressed, city government has remained unchanged. Departments and their functions are often restricted to regulations adopted by the legislature some 50 years ago when the city was a third its present size, the committee maintains.

In support of these claims the committee lists several statistics relating to the city's growth. In 1903, population of the city was 12,009 and by the 1950 census had grown to 35,740. Including those living outside the city limits who have business or are employed in Marion, the actual population is estimated at nearly 41,000 by the committee.

Between 1912 and 1952 the annual city budget grew from $38,342 to $1,557,726. During the same period gas meters increased from 6,400 to 11,537, electric meters from 6,500 to 11,928, water meters from 2,251 to 9,046 and tlephones from 3,116 to 13,242.

—:—

IN THE LAST 25 years, one new industrial firm has been established in the city every two years and industrial employment has tripled.

One of the outstanding business and industrial developments has been the continued growth of the Erie Railroad's divisional terminal since it was transferred to Marion in 1912. A high spot in this growth was the completion of the new diesel shops this year.

In 1921 the first municipally operated hospital—one of 50 beds—was started and presently a new hospital several times this size is under construction.

—:—

THE GROWTH of the community is also reflected in property tax valuations which have increased from $19,935,450 in 1912 $66,035,280 in 1952.

Municipal services and number of city employes have likewise increased over the years. For example, the police and fire departments, representing a substantial percentage of city employes in 1912, totaled 22 men. Today these departments employ 76 persons, which is but a fraction of the 300 employes city officials supervise.

Many other activities and services placed in operation since 1912 now require a form of municipal organization designed to provide

Something really Special

-in power, room, ride, price

We picture here a car that keeps our order book pages turning quicker than quick.

It is the 1953 Buick SPECIAL 4-Door Sedan—the bargain value that doesn't stay long on our showroom floor.

For this is the best-selling Buick in the land—snapped up by eager buyers who know something really special when they see it.

For your information, we present some SPECIAL facts.

It has a Fireball 8 Engine with the highest power and compression ratio ever placed in a Buick SPECIAL—plus, if you wish, the instant getaway response and utter smoothness of Twin-Turbine Dynaflow.*

It has easy-sitting-room for six adults—as much room as you'll find in cars costing hundreds of dollars more.

It has a ride unique among automobiles. The Buick Million Dollar Ride. The soft and steady and ever-level ride that comes of coil springs on all *four* wheels—a full-length torque-tube drive—a massive X-braced frame—a solid and substantial roadweight poised with meticulous balance on broadly spaced wheels.

But what makes the Buick SPECIAL so extra special is the low delivered price it carries.

It is a price just an easy step above the so-called "low-price three"—and a price that gives you more room and power and ride-comfort for your money than you get in any other car, except another Buick.

Wouldn't *you* like to see, sit in and drive one of these great-powered Buicks—look into its beauty, its luxury, its handling ease—and judge for yourself how small a price tag it wears?

Phone us this week, or drop in. We'll be happy to arrange a demonstration.

House Group Finishing Up Farm Survey

Lawmakers Touring Midwestern States; To Visit Ohio Tuesday

INDIANAPOLIS (AP)—The House Agriculture Committee moved into the last lap of a Midwestern tour of farming areas today with most members convinced that farmers want present agriculture price-aid programs continued.

The lawmakers give farmers of Indiana, Michigan and Kentucky an opportunity at a hearing at the statehouse today to lay out their views on future farm legislation Congress will take up next year.

Tomorrow Ohio farmers will be heard at Columbus at a hearing that will wind up the present canvassing trip. On Nov. 2 the committee will open a journey through the West with a hearing at Cheyenne, Wyo.

After traveling through Northwestern, Southern and Western and central corn belt states, the 17 participating members agreed, in an informal poll, that the House group would vote almost solidly for continuation of present 90 per cent of parity price supports for corn, wheat, cotton, tobacco, peanuts and rice.

Parity is a standard for measuring farm prices, declared by law to be fair to farmers in relation to prices they pay.

The 90 per cent support law will expire at the end of the 1954 marketing year unless extended by Congress.

In its 1,200-mile trip through the Midwest, the committee found top-heavy demands that the present law be retained, at hearings in Minnesota, South Dakota and Nebraska. In Iowa the demands were not quite so strong.

In Illinois, farmers divided about evenly between 90 per cent supports and a flexible plan under which floors would be high in times of shortages to encourage production and low in times of surpluses to discourage prodoction

29 Farmers To Go Before Committee

COLUMBUS, Ohio (AP) — Ohio farmers will get an opportunity tomorrow to tell their problems to the House Agriculture Committee

The congressional committee conduct a hearing in the State Office Bldg. here beginning at 10 a. m.

It is part of series of hearings by the committee to gather Grass-roots" farmer opinions on farm programs.

The committee, headed by Rep. Clifford Hope (R-Kan), has only one Ohio member, Rep. James G Polk, Democrat, of Highland County.

Polk says some 29 Ohio farmers have already asked to be heard by the House group, but many others are expected to attend.

Liquor Was Hard

OKLAHOMA CITY (AP)—Lt. Jack Caldwell of the city vice squad reported he confiscated "six pints of hard liquor" in a raid.

The whisky must have been extra hard.

Caldwell said the bootlegger threw a case of the stuff over a 10-foot building trying to get rid of the evidence. Not a pint was broken.

HAMILTON MAN NAMED

COLUMBUS, Ohio (AP) — Sheldon L. Burns, Hamilton, was elected president of the Ohio Society for Crippled Children at the close of a two-day convention here yesterday. Others elected were Dr. Charles A. Bowers, Cleveland, president-elect; Dr. James B. Johnson, Newark, vice president; William C. Mead, Mansfield, secretary-treasurer, Edgar B Allen, Zanesville, to the board of directors.

Pipe Line Blast Rocks Buildings In Pennsylvania

UNIONTOWN, Pa. (AP)—With a roar that rattled windows in homes several miles away, an explosion snapped a 30-inch natural gas transmission line near here yesterday

The blast ripped an 18-foot-deep crater in the earth. It was followed by a fire which spread across five miles of corn field.

Valves on the broken line were shut off quickly and no one was hurt. The Texas Eastern Transmission Corp., which maintains the line to move gas from the West to the Atlantic Coast, said cause of the break, which blasted out a 40-foot section of the line, could not be determined.

Repair crews were on the job quickly and gas is expected to be flowing soon again. Meanwhile, two parallel lines operated normally. A company spokesman said there would not be curtailment of normal deliveries.

OUR WAITERS KNOW HOW TO SMILE

"One thing about your waiters, they seem to enjoy their work. They smile as though they meant it." This nice compliment was overheard at the cashier's desk the other day. All of us, from the kitchen on out to the front door, enjoy waiting on you. This is really a friendly place to dine.

Weathermen Feel Drought Will End Soon

WASHINGTON (AP)—Two U. S. Weather Bureau experts said today they think the drought affecting the central and eastern United States is about over—but that it may return.

Jerome Namias, chief of extended forecasts, and Glenn W. Brier, chief of meteorological statistics, gave their views in a joint, copyrighted interview with the magazine, U. S. News and World Report. Their replies to questions were not individually identified.

"We think," they said, "that conditions from now on will favor a gradual alleviation of the dry weather over central and eastern portions of the country.

"We think it will get started within the next 30 days, but we can't say whether this change will be temporary and that we won't return to a dry condition later on."

They were asked whether the current drought means that the country is in for "a cycle of drought" similar to that of the early 1930s, and gave this reply:

"Well, we've been having drought in some areas for several years and it does look like a drought condition is building up. It is hard to call what is happening a cycle, however. . ."

West Virginia Woman Shoots Husband in Leg

WHEELING, W. Va. (AP)—Mrs. Sarah Brown Troutman, 43, signed a statement yesterday admitting she shot her husband Aubrey, 63, who was admitted to the hospital with a leg wound. Then she added:

"I didn't do nothin' wrong."

"But you just shot a man," a police officer declared.

"He was just my husband," Mrs. Troutman explained.

SET SPEED ZONE

BUCYRUS — Cpl. Harold J. Cardwell of the Ohio Highway Patrol station here announced today that a 40-mile an hour speed zone has been established at Oceola, six miles west of Bucyrus on U. S. Route 30-N. The zone covers six-tenths of a mile, including the village and a section of highway at the east and west edges of the community.

Jewelers Publication Tells of Marion Store

Harold D. Carroll, owner of Carroll's Jewelry Store, is the subject of an article in the October issue of the publication, The Jewelers' Circular-Keystone.

Entitled "He Capitalizes on Role As 'Official Time Agent' To Build Watch Volume," the article relates that the store is the Erie Railroad's official time checking station in Marion. Using the latest electronic watch testing device, the store certifies at least once a month that the watch of each Erie Railroad employe checking in there has the correct time within 30 seconds.

Each month, according to the article, a minimum of 400 railroad men visit Carroll's Jewelry Store for that purpose.

Pennsylvania Fire Kills Six

Mother, 5 Children Die as Home Burns

AMBLER, Pa. (AP)—A mother and her five children are dead in one of the worst fire tragedies in the history of this suburban Philadelphia community.

The husband and father of the victims and four guests of the family escaped the blaze which swept through their three-story home early yesterday.

An oil stove explosion touched off the blaze, firemen reported, and in seconds flames shot up an open stairway leading to the upper two floors. The victims were all trapped in th eir third floor bedrooms Two people on the second floor escaped

The father, John Duckett Sr , 32, was on the first floor with a friend, Stanley Tate, 23, when the explosion occurred. The pair tried in vain to get up the stairway but finally had to flee from the burning home.

Meantime, Eva Dean, 17, Duckett's sister-in-law, and Louella Robinson, 24, climbed from a second floor bedroom to a shed roof and thence through the window of an adjoining residence

Firemen raised extension ladders to the third floor in an effort to reach the trapped family but were driven back by the flames

Duckett's wife, Dora, 29, was found lying in the doorway of the front bedroom with 3-month-old Arlene in her arms The rest of the children, John R , 6, June 5; Dorothea, 4, and Calvin, 3, were found huddled on the floor of the bedroom.

Acting Coroner Dr. John Simpson said they had been overcome by smoke

PURCHASE WAGONS

BUCYRUS — Bucyrus Women of the Moose have purchased two children's wagons for the lodge's children's home at Mooseheart, Ill , officers of the local unit announced today. The wagons were purchased with donations collected by the women in their "Christmas in October" campaign with Mrs. Dennis Clark as chairman.

Prowler Stumbles Against Doorbell, Alerts Household

COLUMBUS, Ohio (AP) — It's a cinch Leroy Broomfield didn't mean to ring the doorbell. But he did.

When John R. Peters, dressed in pajamas, opened the door he found Broomfield on all fours fumbling in the dark with the lock.

Broomfield scrambled to his feet and ran—right through a large plate glass window on the sunporch.

Peters followed him out the window. Broomfield smacked into a wire fence. Peters smacked into him.

"C'mon, Myrt, get out here and help," cried Peters.

Mr. and Mrs. Peters got Broomfield down, sat on him and yelled until a constable came.

In county jail, the 32-year-old Broomfield nursed scratches and bruises and faced charges of breaking and entering and assault with intent to wound

Cadillac

Seems You Ought to Know Him!

You see a man in a beautiful new Cadillac—and, almost instinctively, you take a second look.

Your judgment tells you that those who drive Cadillacs are likely to be people of importance—and are very probably in the public eye.

It is small wonder that you feel this way about people who own and drive these distinguished cars.

For more than half a century, Cadillac has been a favorite car of the leading people in every community across the land. For Cadillac is the *only* car in America whose name has *consistently* been reserved for the finest cars it is practical to produce.

People who want the finest have learned to come to Cadillac—as the tide goes with the moon!

Of course, you don't have to be a prominent person in order to find a reason for moving up to Cadillac.

There is every *practical* reason for owning a Cadillac—as well as every *personal* one.

Under normal driving conditions, the Cadillac car will run a full day on a single tankful of gasoline.

The lowest priced Cadillac costs *less* than twenty-two models of other makes of American-built cars.

And a Cadillac, according to an authoritative study of national used car prices, will return a greater share of its owner's investment at the time of resale than any other motor car in the land.

So whether you are *prominent*, or whether you are *practical*—Cadillac is your perfect choice!

Better come in and see us. Cadillac was never so fine and beautiful as it is today—and it was never more practical to own and enjoy.

We're at your service—any time you wish to call!

The Right Not To Listen

Thousands of miles of distance between bus riders objecting to sales spiels in Washington, D.C., and prisoners of war in Korea resisting propaganda spiels cannot keep them from falling into the same category.

Both groups have asserted a fundamental right.

It is the right not to listen.

It is the right exercised by a householder who turns off his radio or his television set.

It is the right exercised by a reader who turns the page, by a housewife who slams the door on a salesman, by a listener who walks out of a meeting.

In the nature of things it is as fundamental and should be as inalienable as the right to listen, itself.

Yet, in a tedious, patience - trying, Korea truce negotiation, representatives of the United States were so anxious to reach an agreement with the Reds they agreed to force prisoners of war to listen to propagandists.

It took a Supreme Court decision to uphold the Washington bus riders' right not to listen. In Korea, it's simpler. The prisoners of war will tear down the camps and scatter unless the bores shut up.

No Red Colonies in South America

The British government's official statement on the threat of Communist domination of a fledgling political regime in British Guiana is a minor masterpiece of forthright thinking about communism in the new world.

The statement says the "faction in power" had to be, relieved of its power in British Guiana because it was controlled by a Communist clique whose objective was "to turn British Guiana into a totalitarian state subordinate to Moscow and a dangerous platform for extending Communist influence in the Western Hemisphere."

Therefore, control of British Guiana, a crown colony, has reverted to its British governor. This action is to be reviewed by a Commission of Inquiry. The United States, meanwhile, mindful of the Monroe Doctrine and the security of the Panama Canal, has given its approval to the British policy of better safe than sorry.

No matter how bad conditions have been and still are in British Guiana, they would be made no better by the kind of a revolution which would be staged by people whose records reveal association with Communist organizations.

Petroleum: Basic Commodity

It seems to us the information distributed by American Petroleum Institute for "Oil Progress Week," ending Oct. 17, adds up to this thought:

The petroleum industry is America's most dynamic tribute to private enterprise.

It is composed of some 42,000 separate enterprises. With profit as their goal and competition as their stimulant, they are meeting all requirements for production of what has become a basic commodity, thanks to their success.

Many of us can remember when gasoline was such crude stuff that engines had to be primed with special compounds to start them in cold weather, when engine oil was run - of - barrel stuff, when fuel oil was unknown. The oil industry has come a long way at a tremendous clip in the last 50 years and is still gaining speed.

To appreciate its progress we need only to calculate what would have happened if this prime source of energy had been hamstrung in its infancy by public control, like atomic energy. Or, conversely, we need only to calculate what will happen to atomic energy unless it, too is given the benefit of the imagination and ambition of private enterprises, instead of being kept prisoner by cautious and apprehensive public officials.

Larry Parks: No Bitterness

Early in March, 1951, Larry Parks, then headed for entertainment stardom as the result of his success in the movie version of Al Jolson's life, testified before the House Committee To Investigate un-American Activities.

He said he had joined the Communist party in 1941 and had been a member until 1945. This was the same period of time when the government of the United States was doing everything in its power to help the Communist dictatorship of Russia.

Parks did not stand on his constitutional rights to refuse to give incriminating testimony against himself. He did what loyal Americans have been saying everybody should do under the circumstances. He testified freely.

An item of news from Hollywood says Larry Parks now is employed for the first time since he testified more than 2½ years ago. He says he is not bitter; that he made a mistake and was willing to pay for it.

That is admirable. What isn't admirable is that so many people who did infinitely more harm to American interests than Larry Parks ever dreamed of doing have never paid anything for the error of helping the Reds. Some of them, on the contrary, have made a fat living by doing for pay what Parks did for free—telling what he remembered about his experiences.

Churchill's Last Ambition

By James Marlow

Abiding Peace Believed Statesman's Aim

WASHINGTON (AP)—Sir Winston Churchill, at 79 and in the twilight of his historic life, is believed to have one final and great ambition as his crowning contribution to civilization.

It is to help, as architect or engineer, to establish abiding peace in the world. As a starter he wants a meeting between himself, President Eisenhower, Russia's Premier Malenkov and France's Premier Laniel.

Usually at such a top level conference there is an agenda—a program of what shall be discussed, just that and nothing else. There is something to be said for this, and something against it.

By knowing exactly beforehand what topics they are to talk about, the heads of government can go well prepared to such a conference. They can go with plenty of research, briefing and advice from their experts.

An agenda also makes for a speedier end to a conference than if the men taking part in it had no agenda and were free to wander afield, discussing problems that come to the mind.

So, while a conference with an agenda might be able to concentrate on a few items, it would sacrifice the chance, if any, for a more relaxed meeting which could cover, and perhaps settle, difficulties which somebody just happened to bring up.

The American government takes a different view. Before any top level Big Four meeting, it wants the foreign ministers of the United States, Britain, Russia and France to meet—with an agenda.

Last Wednesday Secretary of State Dulles flew to London to confer with Britain's Foreign Secretary Anthony Eden and France's Foreign Minister Georges Bidault. They had a number of problems to talk about.

Trieste, Korea, and suggesting to Russia some way of getting together with her to talk about a peace settlement on Germany and Austria, particularly Germany.

The three ministers seemed to have a choice: suggest that they meet with Russia's Foreign Minister Molotov or accept Churchill's idea and suggest a meeting between him, Eisenhower, Malenkov and Laniel.

On the day Dulles flew to London, the Swedish Academy was giving Churchill the Nobel prize for his writings and his oratory. His oratory was "scintillating," the academy said.

That night, after both the announcement and the American secretary of state had arrived, Churchill had a chance to try out his oratory, at least in conversational form.

He had Dulles, Eden and Bidault in to dinner. And he had them back the next day for lunch before their three-day meeting began.

Yesterday, just before he took a plane back home, Dulles said the British prime minister had been in "fine form."

But apparently Dulles was unmoved by Churchill's call for a top level parley. For at the end of their meeting, instead of proposing a Churchill-Eisenhower-Malenkov-Laniel meeting—it would have been a surprise if they had—the three foreign ministers proposed:

That they—Dulles, Eden, Bidault—meet with Molotov to discuss unification of Germany an independence treaty for Austria, and some way of bringing peace to the world.

The announcement had hardly been made before people in the State Department here were expressing doubt that Russia would accept. For one thing, they pointed to Russia's uncertainty about Germany.

The riots in East Germany in June and the overwhelming re-election in September of West Germany's Chancellor Konrad Adenauer, a close ally of the West, were enough to make Russia doubt a unified Germany would ever be on her side.

History may show whether Churchill was right or wrong.

Unfinished Investigation

By TRUMAN TWILL

When the Duke of Bedford died in a gun accident on one of his vast estates a few days ago, one of the things he left behind him except his hereditary fortune was an unfinished investigation of house mice.

He had been trying to find out where house mice lived before there were houses. Since Lord Bedford was a member in good standing of the International Amalgamation of Fruit Cakes, some of us surviving brethren will take up where he left off in his quest of knowledge.

But the question of where house mice lived before there were houses will have to take its place in the list of unfinished studies going forward under AFC auspices.

We must find out first where house flies lived before there were houses, and also we must learn more about the origin of housemaid's knee. There is original research under way on the mystery of house guests too — what it is about them and fish that makes both ripen after three days.

We will be busy for years to come on what people who now have television did to amuse themselves before they had television, what held civilization together before Scotch Tape and Cellophane, and what will happen to the human race after Arthur Godfrey.

We expect to learn in due time if vitamins are better for people than the electric belts they wore in the early days of electricity, whether the Barrymores were good actors or only had good press agents and how earth worms can tell whether they are boring up or down.

We are on the trail of facts about the sudden disappearance of the credo of mass production—that more and more should be produced for less and less.

We thirst for knowledge about the fate of two - platoon football players who were left high and dry by the one-platoon system.

We must know more about John Nance Garner and Henry A. Wallace, who vanished about the same time as the whooping cranes.

Ahead of the house - mouse study on the IAFC agenda is a study of George Jesselism, the secret power of Eleanor Roosevelt and what ghost writers feed on to make their metaphors so moving.

We must find out what people did in parlors before there were parlor games, how office workers used up time before coffee breaks and the 40-hour week, where tired executives and playboys used to go to rest up before they had Florida, Arizona and California;

What happened to human suffering before sedatives and pain killers, what people used to do to facilitate concentration before chewing gum and cigarets;

What Americans relied on for a quick lunch before hamburgers, where barn owls lived before there were barns, what sewer rats did before there were sewers and what rubber plants were called before rubber was invented.

We members of the International Amalgamation of Fruit Cakes are full of questions we want to have answered. The Duke of Bedford's unfinished project may have to wait for years.

Portent in Wisconsin Election

By Raymond Moley

There is a disposition among "Eisenhower-before-Chicago" people to ascribe the defeat of the Republican Padrutt by the Democrat Johnson in the Ninth Wisconsin District to all sorts of factors except displeasure with President Eisenhower.

A good example of that sort of rationalization is in an editorial comment in the New York Herald Tribune:

"To put the matter bluntly, the President is more popular than his party. The need is to impart something of his appeal to those who run on the Republican ticket.

"The answer to the problem is not merely lip service to the ideal of liberal Republicanism represented by Mr. Eisenhower. The answer must be a record of accomplishment by the party as a whole, for which Congress is considered no less responsible than the President."

This is written with all of that delightful, long - distance detachment from facts imparted by the seclusion of an office in New York. The writer might have learned how silly he was by a few long-distance calls.

One such call I made to a man who has campaigned in the Ninth Wisconsin many times.

His opinion was that Hull, the previous holder of that seat, had over the years done just as well without Eisenhower as with him.

He said, further, that the great majority of the people of the Ninth are by tradition and sympathy still La Follette Progressives; that they broke over party lines this time to take a former Progressive who opposed the Eisenhower policies and to reject a former Progressive who zealously promised to support Eisenhower all along the line.

My friend said also that the people of the Ninth, being Progressives, are unhappy over the influence of "big business" in the Eisenhower administration; that they do not think Dulles is much of an improvement over Acheson; that they believe Secretary Benson is wholly out of touch with farm problems in the Middle West.

Another source of information tells me that the voters in the Ninth are not at all happy about Sen. Wiley's opposition to t Sen. Wiley's opposition to the Bricker amendment and about the appointment of Gov. Warren who is known in Wisconsin because he campaigned there in the primary fight in 1952.

I offer these opinions with no guarantee of their accuracy, but merely to show that informed people are not deluding themselves with the idea that the popularity of Eisenhower is wholly unimpaired.

In addition to these opinions—and they are mostly opinions—a few facts can be adduced to controvert the coattails theory.

In 1952, with Eisenhower running with him, Merlin Hull, the Republican candidate, received a smaller percentage of the total vote than he did in 1950.

In 1948, and in 1946 he had no Democratic opponent at all. In 1944 he ran as a Progressive without opposition, and in 1942 he was elected as a Progressive.

Hull's voting record was decidedly against most of the Eisenhower-Dulles foreign policies. But Johnson, the successful candidate, declared that he would follow the Hull pattern of policy.

The unsuccessful Republican, as I indicated above, was for the Eisenhower policies.

Altogether, this result is a portent which the President as well as the Republican party should vote not only against law but the administration of law.

'Hans' in Denmark

By Richard Thomas

COPENHAGEN—

Richard L. Thomas of Marion is a Fulbright scholarship student at the Foreign Graduate School University of Copenhagen. His experiences and observations will appear in this space from time to time.

Commenting on the recent Copenhagen premiere of Metro-Goldwyn-Mayer's "Hans Christian Andersen," a witty Dane remarked that "it was as if Uncle Sam Goldwyn had directed the whole affair by remote control from Hollywood."

Beautiful girls in Greenland costumes sold elaborate programs while other nymphs in national dress passed out flowers to the ladies. In keeping with the importance of the occasion, Queen Ingrid and her daughter, the charming Princess Margrethe, occupied the theater's flower-bedecked royal box.

— —

AS THE HEAVY curtains were drawn aside, 15 violinists in formal attire stepped forward and rendered several stirring choruses of the film's theme song, "Wonderful Copenhagen," while the audience literally tingled with excitement. Copenhagen's first attempt to stage an international-type film premiere was an overwhelming success.

"Hans Christian Andersen," although produced in America and already popular the world over, was received with more exuberance and hopeful skepticism in Copenhagen than anywhere else because H. C. Andersen, the renowned children's storyteller, was born, lived, and died in Denmark.

— —

ANDERSEN IS A national hero of Denmark to the extent that his likeness adorns the center of 10-kroner notes, and the mention of his name is enough to make any Dane swell with pride. No wonder everyone here was anxious to see what Hollywood had done with the revered and respected H. C. Andersen.

Metro-Goldwyn-Mayer got off to a bad start with Danish sentiment before the picture was even started. This unfortunate situation resulted from Danny Kaye's visit to Odense, the birthplace of H. C. Andersen. Apparently Mr. Goldwyn thought it would be wise for Danny to see for himself the environment in which Andersen lived before attempting to portray his life.

All went well until Danny entered the Andersen home, which is now a national museum. At that point, Danny seemed to lose his appreciation of the Danish respect for Andersen. With press photographers busily shooting pictures, he flopped casually onto H. C.'s sacred bed, and tried the old gent's boots on for size. The caretaker was meanwhile scurrying to hide HC's famous hat and the rope that he always carried in case of hotel fires. The whole nation was appalled when it learned of the incident.

— —

SUCH GROSS LACK of respect had never before been known. Cartoons appeared showing Danny Kaye lounging on the bed while the ghost of H. C. groveled on the floor, and the newspapers gave the incident extraordinary coverage.

(It must be admitted that the residents of Odense are rumored to be reluctantly happy over the affair. A great number of American tourists visited Odense this summer, and many residents feel that Danny Kay's faux pas lured many of them there to witness the scene of the crime.)

Shortly after production was started on the film, rumors began circulating through Denmark that Hollywood was treating the revered Mr. Andersen in a most cavalier manner. Many Danes scoffed at and disparaged the film even before it was finished, but the interest steadily increased along with the criticism until both reached their zenith last month at the premiere.

— —

DANISH REACTION to the picture was both vigorous and diverse. One Dane ruefully commented that "it was as if we in America had put Abe Lincoln in a wheelbarrow and wheeled him through Times Square." Others were quite happy about the film and seemed to disregard the discrepancies in Andersen's life that do occur. (Andersen never was a shoe cobbler, was never in jail, nor was a ballerina ever included among his lady loves.)

In their reviews of the picture, Copenhagen's leading newspapers did much to mollify those whose national pride had been hurt. Berlingske-Tidende, the Conservative Party paper, reported:

"There is no reason for indignation over the film, for it has never aimed at anything other than being a show inspired by Andersen, and in this Sam Goldwyn and his folk have succeeded.

"They have not presented a biography on the colored screen, but they have filled it with an arrangement, that between commonplaces and improbabilities, contains both poetry and art." Berlingske-Tidende went on to say that it is unfortunte that the picture is almost completely void of true happenings from Andersen's career, but stated that it is easy to laugh about the misconceptions of Danish life, provided that one is not completely lacking in humor.

— —

POLITIKEN, the spokesman for the Social Democrats, was also kind to the film. "The exceptional acclaim for Samuel Goldwyn's Hans Christian Andersen has not been exaggerated—the film deserves it. How some have been able to become incensed over the story is not understandable." Politiken also pointed out the flaws of the movie, but the essence of the article was that the film is a great success.

The official position of these newspapers, that the picture is highly entertaining and was never actually meant to be a biography of Andersen, has set the tone for the Danish people, most of whom will now admit, with reservations, that "Hans Christian Andersen" is a delightful fantasy.

The Once Over

By H. I. Phillips

Herman Sees It Through

Herman Hickman, famous football star, ex-Yale grid coach and airwave personality, has turned book author. (This will make him, pound for pound, one of the top literary figures in the world.) His success represents years of good eating and we toss our lid into the air for the complete reversal of the "for years I starved in garrets before I found a publisher" routine.

Here is an author and poet who started his career in a well-provisioned southern kitchen, struggled through some of the largest banquet halls of the nation and had sealed the heights of obesity before he won recognition!

"Yes, I won out, but the battle was a long one," said Mr. Hickman today over a planked steak with a "spare" attached. "There were many times when I had a terrible fear that I could eat no more at one meal."

Ah, those long years far from any barren foodless garret!—Those long months when I wrote on tablecloths, the back of menus and the cuffs of white shirts, with almost no time at all between meals! ! !"

"It must have been terrible," we admitted, signalling a waiter that the author would have to have another shipment of mashed potatoes with gravy.

"There were times in those dreary years when I was so exhausted from eating that I despaired of ever winning recognition in the literary field," the 340-pound former All-American went on, switching knives and forks. (He wears out table utensils very fast.)

"Many a night after a long day in which I had been unable to know hunger, I was about ready to give up. Once a banquet on my schedule was called off and for a few brief hours I thought at last I might feel a craving for food, but some Yale grads dropped in with a load of venison. It was always like that. Oh, the agony of it all!"

"Your advice to budding authors is that they should have the fortitude to stick it out no matter how much they have to eat?" We asked.

"Definitely," said Herman, the name of whose book we won't mention because we are on a diet and envy him too much.

Nothing has lost force in America so much as "Cheese it, the cops!"

President Eisenhower's superduper birthday party at Hershey, Pa., with a $100-per-plate barbecue held in a Ringling Brothers tent for 6,500 guests and with 20,000 or more people attending the general festivities, may bring back the old-fashioned rip-roaring birthday celebration to American life. It's years since birthdays amounted to much . . . A lot of people tied them up as something belonging to Tories and other Republicans. People were afraid to throw a gala birthday celebration for fear the Democrats would impose a tax on it or something. Millions of Americans stopped acknowledging they were a year older every twelve months, with the result that there are today in this country (especially on stage and screen where people are sensitive about such things) thousands of people who must be close to 100 but insist they are under 50. Ike is for birthdays for all. favors them annually and takes a firm stand for a return to the days when people gave their right age, even in a circus tent before tens of thousands.

The Chinese Reds now want the whole peace in Korea discussion transferred back to Panmunjom. The snafu at the New York headquarters of U. Roller Coaster Runs Wild at Fair in Dallas

Passengers Treated To Unscheduled Thrill; Six Are Injured

DALLAS (AP)—A runaway roller coaster whizzing an estimated 40 miles an hour smacked into another being loaded at the state fair last night. The impact sent hurt and terrified passengers in the second coaster on a 25-cent nightmare round trip that could not be stopped.

Six persons were injured, none critically.

Fred Mahyall, 21, sitting on a bench in the loading shed, watched helplessly as the runaway coaster bore down.

"Two of my friends had just gotten on the car at the dock I didn't want to ride. I just sat down to wait for them I saw the other car coming and fast. It must have been going 40 miles an hour.

"Two girls on the incoming car screamed. Then it hit After that, there were a lot of screams and everybody started pulling people out of the car and stretching them on benches"

The second car was knocked about 20 feet—far enough to be hooked by automatic cables that sent it climbing relentlessly up the first steep grade.

Screams filtered down to crowds milling in the busy midway..

The roller coasters do not have drivers. Cables raise them up grades and let go as they whisk down the other side Attendants stop the cars by pulling levers, which clamp keels against the rails.

Unable to stop it, attendants watched the silver "thrill wagon" complete the three-minute trip around the track. They braked it to a stop at the loading shed.

Police were investigating whether mechanical or human error resulted in the accident

They sidetracked both damaged cars. After a third car was sent on several test runs, people lined up again at the ticket window.

Galion Ordinance Reorganizes City Police Department

Special to The Star

GALION — A city ordinance, passed Friday night, in a special session of City Council, reorganizes the Galion police department. It establishes two new positions, those of lieutenants, who will serve as officer in charge of the afternoon and night shifts. The measure also provides for two captains, instead of three as had been in effect, and nine patrolmen in addition to the chief of the department

By passing the ordinance as an emergency measure, it will become effective immediately.

The new setup provides that rules and regulations for the working conditions, organization training courses and operation of the department, be drawn up by the chief of police, under direction of the safety director and with approval of the mayor and council.

The two captains will have charge of special divisions of the department Capt. George L Cook is head of the detective and juvenile division, an assignment he was given only two weeks ago before the new ordinance was passed. The new ordnance officially sets up the detective and juvenile division with plain clothes officer to be responsible to the chief for the detection of criminals, investigation and prosecution of criminal offenses, locating missing persons, recovery of lost and stolen property, comparison of criminal records and investigation of juvenile cases

Capt Wilbur E. Schnegelsberger heads the traffic division He succeeded Morris R. Bowers when Bowers became chief of the department in August.

Examinations are to be held in the near future by the Galion Civil Service Commission for the positions of lieutenant and patrolman.

Gov. Lausche Visits Bucyrus During Colorful Sesqui Parade

Special to The Star

BUCYRUS — Between 25,000 and 30,000 spectators lined downtown streets here Saturday night for a giant historical parade, marking the conclusion of this city's week-long observance of Ohio's Sesquicentennial.

A surprise participant in the parade was Gov. Frank J. Lausche, who arrived late Saturday afternoon in his private plane from Bellevue, where he had participated in a street dedication program. The governor rode in a highway patrol convertible, accompanied by Mayor Frank P. Sitler and Police Chief Arthur L. Stuckert.

The parade, the largest ever held here, included approximately 75 floats, bands, marching units, horse riders, antique and modern automobiles. Glenn S Senseney, city treasurer, was parade marshal Ideal weather brought out the largest crowd ever to witness a parade here, according to Police Chief Stuckert.

Almost every phase of Bucyrus' history, including religious, educational, social, civic, war service and industrial, was depicted in floats, sponsored by churches, civic groups, schools and industries.

In ceremonies at the parade reviewing stand before the parade got under way, Franklin J. Roelle, Bucyrus attorney and Crawford County Sesquicentennial chairman, introduced a number of guests, including Governor Lausche. Ralph McCombs of the Ohio Sesquicentennial committee in Columbus, Dr Ernest G. Hesser of Crestline, Walter Goshorn, Galion newspaper editor and chairman of that city's sesquicennial celebration, Harold G McMichael, rural sesquicentennial chairman.

Mayor Sitler presented official documents to three surviving members of the Norton family proclaiming Saturday as Norton Day. The documents were given Arthur J Norton, a great-grandson of Samuel Norton, founder of Bucyrus, his son, Edwin A., general chairman for the celebration, and his grandson, Dennis O., a Bucyrus High School student

WORLD CONTESTANT. Petite Denise Perrier of France hopes to win "Miss World" title in 14-nation beauty contest in London.

Ladies Night Party Set Tuesday by Rotary Club

Cancer Unit Chooses Officers at Bucyrus

BUCYRUS — Four officers were re-elected and one new officer chosen at the annual reorganization meeting of the Crawford County unit of the American Cancer Society held here Wednesday night.

Re-elected were Ira Clary of Bucyrus, president; Mrs. Robert Gebrisch of Crestline, vice president; Paul Zeller of Galion, treasurer; and Mrs. Ethel Smith of Bucyrus, chairman of the surgical dressing program. Miss Esther Wagner of Bucyrus, head of the county aid for the aged office, was named secretary, replacing Miss Mary Etsinger, Bucyrus.

A budget of $2,900 for expenditures during the 1953-54 year was approved by the executive committee. Charles E. Hickley, Jr., county relief director and executive secretary of the unit, said expenditures during the past year totaled $2,970.

Approximately 150 volunteer workers contributed their services last year, including 84 persons who made 3,200 dressings or bandages Other statistical data included 79 persons given service; 88 home calls; six persons sent to the Columbus Cancer Clinic; seven persons received drugs, X-ray, transportation or other services

Retired Teachers Attend Convention

Eight members of the Marion County Chapter, Ohio Retired Teachers Association, Inc, attended the state convention of the association last week in Columbus

Miss Arena Hinds of Marion was elected a member of the board of directors.

According to membership, the Marion County chapter had the highest per cent of attendance of any chapter represented. At the convention, members were informed there are about 7,000 retired teachers in Ohio, about 4,000 of whom are members of the ORTA. In 1953, the organization gained 153 new members and lost 88 by death.

Attending from the Marion Chapter, besides Miss Hinds, were Miss Alice Sneckenberger, Mrs Audrey Bolander, Miss DeEmma Hawley, Miss Luella Scholl, Mrs Alice D Turner, Miss Sophia Mack and Miss Geneva Terry

Mrs. Wilda Fisher of Marion was a guest of the chapter.

GIs Get Far East Duty for Going AWOL

6,900 Shipped Out in Drive on Runaways, Says Louisville Times

LOUISVILLE, Ky. (AP)—The Louisville Times quoted Army sources today as saying 6,900 convicted AWOL soldiers have been shipped to the Far East in a crackdown in runaways.

That policy and others covering sterner treatment of runaways has reduced the AWOL and desertion rate 30 per cent since January, the Times said in a copyrighted story.

The Army ordered a crackdown after the Times, in a copyrighted series of stories in January pointed up a "shocking runaway problem."

"The 30 per cent reduction, when applied to the Army's earlier admissions of 20,000 runaways a month, means that by the end of 1953 there will have been 80,000 fewer cases of desertion and AWOL than in 1952," the paper said.

It said the Army's announcement came in a letter from T. A. Young, special assistant to the secretary of the Army in Washington, to U. S. Sen. John Sherman Cooper (R-Ky).

Besides shipping convicted runaways to Korea and other bases in the Far East, the Army meets its unauthorized absentee problem by:

1. Increasing from $15 to $25 the bounty offered civilian police for the capture of runaways.

2. Requiring that runaways must pay the cost of their apprehension, including rewards and travel expenses of guards sent to return them to camp.

3 Requesting stiffer penalties for short-term absence without leave.

Trucks Being Used To Ease Shortage Of Ashley Water

The critical water shortage at Ashley in Delaware County has reached out to involve Marion facilities.

Two Marion Engineer Depot water distributor trucks with capacities of 1,000 gallons each are being used to haul water from the Delaware reservoir to Ashley.

It is estimated that it would take approximately one week of continual 24 hour-a-day hauling in the two Marion trucks to keep up the present rate of water usage.

Volunteer firefighters started last week to haul water from the Delaware reservoir to the Ashley water treatment plant in the Ashley fire department 1,000 gallon truck and an 800-gallon truck loaned by the state highway department. The Engineer Depot trucks were put into operation Thursday afternoon.

The shortage is so critical that for a few days last week students were requested to bring their own drinking water to school.

les took a plane last night for the United States and Bidault flew back to Paris. Before leaving Dulles said he was "very happy about the conference as a whole."

Western notes were handed to the Kremlin by the American, British and French envoys in Moscow proposing a Big Four foreign ministers' conference Nov. 9 at Lugano, Switzerland. The conference would try to end the deadlock over unifying Germany, giving occupied Austria her independence and assuring security throughout Europe, presumably through a series of East-West non-aggression pacts.

During their talks, the three also had called for an urgent session of the U. N. Security Council to discuss the threat to Middle East peace posed by the attack by Israeli troops Oct. 14 on the Jordan border village of Kibya in which Jordan claims 66 persons were killed.

Rubbish Fire, Dropped Match Start Grass Blazes Near City

A grass fire which endangered the Baker Airport and several hundred acres of farm land in the former Scioto Ordnance Plant area Saturday afternoon was brought under control by firemen from Marion, Caledonia and the Marion Engineer Depot before much damage could result

Marion Fire Chief Owen Sifritt said today the grass fire was touched off by a rubbish fire just east of the airport. The flames barely missed reaching a large cornfield near the landing strip Had the flames entered the field, he said, the fire would probably have raged out of control until it reached the Williamsport Road, the eastern extension of East Fairground St.

No estimate of the loss was given.

A similar fire was reported Saturday afternoon just south of the Sawyer Sanatorium in the Sawyer Road. Sifritt said some one dropped a lighted match along the highway and set fire to leaves. The blaze spread to a hedge row and threatened to enter a cornfield. The chief credited a passerby with saving the corn. He prevented the flames from spreading until the fire department could arrive. Sifritt said from 20 to 30 feet of the hedge row were destroyed.

Two fires were reported in the city Sunday.

Firemen were called to the home of George Kenendy of 263 Merchant Ave. at 12.36 p.m. when a short circuit in the wiring of an electric motor filled the house with smoke. A $25 loss was reported. Firemen from the Central Station answered the call.

Slight damage was reported as the result of a short circuit in an electric motor at the Jockey Steak House on N. Main St. yesterday at 8 18 p.m. The building was filled with smoke. The Marion Township truck answered the call. Loss was estimated at $25.

Fatal Crash

(Continued from Page 1)

pital with cuts on both eyes and on the right eyebrow after the car in which he was riding was involved in an accident with another at Bellefontaine Ave. and Pearl St. Saturday at 12:19 p.m.

Helen Dovens of 1119 S. Prospect St. was the driver of the car in which the boy was riding. Her car and one driven by Albert G. Herr, 55, of near Marion, collided.

The front end of the Dovens car was badly damaged, as was the right side of Herr's car. Both vehicles were towed from the scene of the accident.

John Frederick, 10, of 200 Johnson St. was injured in the right elbow and hip as the bicycle on which he was riding was struck by a car Saturday at 9:05 a.m. near E. Church and High St.

Driver of the car was Claude W. Benker, 41, of 227½ W. Center St. He was arrested on a charge of driving without sufficient brakes. The left side of his car was damaged.

The boy was taken to his home, and did not require hospital treatment.

Other Accidents

In other accidents over the weekend, a parked car owned by Dorothy Briner of 249 Uhler Ave. was struck by a hit-skip motorist in front of 129 Court St.

Cars driven by Ira W. Scott, 54, of 620 Darius St. and Benjamin G. Wetterauer, 76, of 929 Mt. Vernon Ave. were damaged in an accident at W. Columbus St and Blaine Ave. Sunday at 11 56 a.m.

Cars driven by Kenneth J Barter, 33, of near Marion and Don Tweed Greer, 73, of near LaRue were damaged Sunday at 5 05 p.m. as they struck on W. Church St. near the intersection of Pearl St.

A car driven by Susanne H Durling, of Oberlin was damaged in the rear end after being struck by a car driven by Wayne Studdard, 33, of Cuyahoga Falls. The accident happened Sunday at 3.06 p.m. on S. Prospect St. near Carver Ave.

Sunday at 9.15 p.m. cars driven by Carl F. Parks, 21, of 598 S. Prospect St. and by Ruth Ann Thomas of 560 Sugar St. were involved in an accident on E. Church St. near the Schaffner Furniture Store. According to reports, the car driven by Miss Thomas struck the rear of the other car.

Parked Car Hit

A parked car owned by Powell E. Hensel, 24, of 648 Oak St. was damaged while parked at 648 Oak St. It was struck by a car driven by Larry J. Zickafoose, 18, of near Marion Saturday afternoon.

A car driven by Harvey D Claypool, 28, of 203½ Sharp St. was struck by a Marion Transit Bus Friday at 8 25 p.m. near W Center St. and Prospect St. Police reports indicate the bus did not stop after the accident.

Four Others Injured

Four injuries resulted from five other accidents investigated by the state highway patrol over the weekend.

Two Marion women were injured when the car in which they were riding was struck by a train at the C & O crossing south of Marion on Route 4, at 3:48 p.m. yesterday.

The injured were the driver, Mrs. Ada May DeBolt, 60, of 330 Franklin St., and Mrs. Florence L Mounts, 55, of 251 Clover St. They were taken to Marion City Hospital, treated and released.

Mrs. Mounts suffered a lacerated nose, chest and back injuries and shock. Mrs. DeBolt received abrasions on both knees.

The patrol reported that Mrs DeBolt apparently did not see the approaching train and drove on to the crossing, where the car stalled. Both women were trying to get out of the car when the train struck it. The car was demolished.

Train's engineer was Edward Lantz, 62, of Columbus.

Passenger Bruised

Daniel Laughrey, 16, of near Richwood, received severe bruises of the left leg when a car in which he was riding was demolished in a one-vehicle accident on Route 739 just west of Green Camp at 7:50 p.m. yesterday.

The driver of the car, William Randall, 15, of near Richwood, escaped injury. The car was eastbound when it left the road as Randall failed to make a turn, the patrol reported. The car tore up a guard rail, turned over and rolled into a ditch.

Rodney Teetons, 27, of Columbus, received abrasions of left hand, right leg and the head when his car was demolished in an accident at 4:15 a.m. yesterday on Route 98 just inside the north city limits of Waldo.

The patrol reported that the car struck a road marker and rolled over after Teetons apparently fell asleep.

Two Drivers Arrested

Two arrests resulted from an accident between a car and a tractor with trailer on Route 4 at the Sawyer Rd. at 1:15 a.m. Sunday.

John Shirk, 18, of 355 Nye St., was arrested on a charge of failure to signal a turn. The tractor driver, Paul Davis, 28, of Milton, Ind., was arrested for passing over the yellow line. Both were cited to appear in Municipal Court Saturday.

Both vehicles were north-bound. The collision occurred as Davis started to pass Shirk who was attempting a left turn, patrolmen reported. Shirk's car was extensively damaged on the left side. The tractor received minor damage.

Jack Romano, 24, of 563 Wood St., was cited to appear in Municipal Court Saturday on a charge of unsafe operation resulting from an accident on Route 23, five miles south of Marion, at 6:50 p.m. Sunday

The patrol reported Romano's car struck the rear of a car driven by William F. Beck, 20, of Fremont, who had pulled over to the side to make way for a bus which was approaching from the opposite direction and in the act of passing another vehicle.

Both cars received minor damage, Beck's in the rear, Romano's in the front.

maximum efficiency, the committee claims.

TYPICAL OF THESE activities and services are administration of the municipal airport, parks and recreation, garbage collection, sewage system, and hospital. The ever increasing traffic problem is another legislative and administrative headache, the committee says.

These and many other responsibilities, which make up the job of Marion's present-day municipal government, are regarded by home rule advocates as proof that a "modern, more efficient, flexible and appropriate form of government is needed."

They claim a vote for the Home Rule Charter commission next

United Appeals Campaign Facts

Q. What if I give my charity direct?

A. A few persons in a community our size giving their "charity" direct wouldn't scratch the surface of needs. Experience of other communities teaches Marion that the agencies that put on the most spectacular program would get the most, while those that can't dramatize their services would get little. Besides, "charity" belongs to an era of past history in modern social services. Today the public, tax-supported agencies are able partners on the same team with the organizations in United Appeals dedicated to save families from destruction, give self-confidence to the handicapped, perform vital health services and guide our youth.

TO WARD OFF AN ARCTIC ATTACK. A chain of radically-new radar stations is being forged in the Arctic regions to give the United States Air Force a six-hour warning in case enemy bombers fly a polar route for an atomic attack on America. The chain, 1,200 miles from the North Pole, includes automatic-alarm radars (like the one above) that are protected by rubber domes from magnetic interference. Photo below shows an IST approaching Point Barrow, Alaska, through an Arctic ice field. The craft is one of 14 ships carrying electronic equipment for the radar stations.

Trieste

(Continued from Page 1)

ernment might be inclined to accept. But President Tito and other speakers already have declared they feel such a meeting would be of no use if Britain and the United States held in advance to their decision to pull out of Zone A of Trieste and turn it over to Italian administration.

(The Belgrade radio, heard in London, broadcast a declaration by a political commentator for Yugoslavia's official news agency Tanjug that the Yugoslavs would refuse the invitation if the handing of Western-occupied Zone A to Italy were a foregone conclusion.)

Belgrade Puzzled

The communique issued by U. S. Secretary of State Dulles, British Foreign Secretary Eden and French Foreign Minister Bidault at the end of their three-day conference in London yesterday plunged Belgrade into puzzled, anxious suspense.

But the angry demonstrations that some had expected to follow any unfavorable decision by the Big Three did not take place.

The first radio bulletin heard in Belgrade said, "The whole thing seems very unclear—we don't know what it will lead to—it looks barren."

Tito and two of his top government aides made it clear in speeches yesterday in different parts of the country that Yugoslavia stood firm on her avowal that the entry of Italian troops into Zone A would be considered an act of aggression.

Repeats Threat

Tito repeated his threat to push troops into the area comprising the vital Adriatic port city of Trieste the moment Italian troops set foot in Zone A. He already has ordered reinforcements into Yugoslav-occupied Zone B of the free territory over which both Italy and this country lay claim.

Italian Premier Giuseppe Pella has threatened his government will resign if the West backs down on its latest decision.

The tough Yugoslav leader was quoted as saying, however.

"I wish to say firmly our troops will not fight against Anglo-American troops."

The Belgrade radio broadcast of this statement did not clarify what Tito planned to do if Pella marches his forces into Trieste before the two Western powers pull their 7,000 occupying troops out.

The three Western foreign ministers in London indicated there had been no change of heart since the original decision Oct 8 to pull the Anglo-American forces out and let Italy take over. And the troops in the port city continued to work at top speed for an early withdrawal.

The first contingent of British dependents left by train yesterday. Families of American GIs and officers left by ship last week and more were getting ready to depart as soon as possible No definite target date has been announced for the final pullout of troops.

Tito called the Big Three diplomatic envoys in Belgrade to an unusual Sunday conference to discuss the latest Trieste developments

Further signs of the growing tension over the issue came in Italy's report that she had ordered three crack divisions north of Trieste on the Yugoslav border on a state of emergency to "counterbalance" recent Yugoslav reinforcements in the area.

DOOR HIT BY ROCKS

Another incident of pre-Halloween pranks was reported today by city police. Saturday night, police received a call that several boys had thrown two rocks through a storm door and front door of the house belonging to Carl Sims of 198 Leader St. Value of the damaged property was placed at six dollars by police.

Budget Prospects Reviewed

Federal Deficit Is Predicted for 1954

WASHINGTON (AP) — Congressional sources said today another federal deficit next year is indicated in the Eisenhower administration's advance budget prospects.

Final decisions have not been reached, they said, but administration officials wrestling with the problem are talking of this general outlook for the budget to be proposed next January:

May $5 Billion

1. Despite all efforts to balance the budget, defense spending and scheduled tax reductions probably will add up to a red ink figure of from two to five billion dollars for the year starting next July 1.

2. But the "cash" budget, which includes social security trust fund accounts and other items not counted in the regular administrative budget, probably will show a balance for the first time in several years.

This picture came from congressional sources who are in close touch with administration fiscal planning, but who asked not to be quoted by name

Revised figures for the current years, ending next June 30, indicate spending of $72,100,000,000 and revenue of $68,300,000,000. This would be an administrative deficit of $3,800,000,000. The "cash" deficit for this year is estimated at a half-billion dollars.

May Reach Goal in '55

Congressmen said the administration would feel it has made good progress, although not so much as hoped, if it can eliminate the cash deficit next year in the face of scheduled revenue losses. They said administration officials are banking strongly on a balanced administrative budget for the following year.

The cash budget includes income and outgo under the social security program and other special accounts which are kept separate from regular funds. These programs generally are taking in more money than they are paying out This trend would be accentuated next year under a scheduled increase in social security taxes.

Secretary of the Treasury Humphrey and other officials have said the cash budget, because it measures total government intake and outgo, is the important factor in determining whether government fiscal policies lead to inflation.

It is not the budget meant, however, in popular talk of budget balancing

Visits to Labor Boss Defended By Dewey Aide

NEW YORK (AP)—Acting Lt. Gov Arthur H. Wicks likens his visits to an imprisoned labor extortionist to a national foreign policy seeking peace "by audiences with a Premier Stalin or a Marshal Tito."

Wicks, under pressure from Gov. Thomas E. Dewey to resign, made a dramatic radio-television defense yesterday of his Sing Sing Prison talks with labor extortionist Joey Fay, who has become a central figure in a political furor with potential national repercussions.

The acting lieutenant governor was the victim of a "human error" and tight video programming which combined to diminish the effect of his plea.

National Broadcasting Co personnel for a time could not locate the film of the television show, and viewers were shown a travelogue of Boston. An hour and a half after the scheduled time, NBC put the Wicks telecast on the air, but it went out on only one of the six New York state stations which had planned to carry it. Radio broadcasting was not affected.

Wicks, who has turned down a demand by Dewey that he resign as Republican majority leader of the State Senate, reiterated on the air that he visited Fay to keep labor peace without seeking or giving favors.

The visits were "lamentable," Wicks said, and added:

"But was it more lamentable than it is in our national foreign policy to seek peace and society's welfare by audiences with a Premier Stalin or a Marshal Tito?"

"My only purpose in going," said Wicks, who is from Kingston in the Hudson River Valley between New York and Albany, "was to keep labor peace and avoid jurisdictional strikes in my senatorial district."

C of C Names Five Directors

New Men Will Take Office in November

Announcement of election of five men to the Chamber of Commerce board of directors was made at a meeting of the board today. Balloting was conducted by mail.

Francis B. Huber, vice president of the Fahey Banking Co., was re-elected to the board. Other new board members are Walter Axthelm of Axthelm-Turner Co.; E L. Mitchell, attorney with Strohtz, Halberstein and Mitchell; James M. Rankin, vice president and general manager of Rankin Oldsmobile, Inc.; and L. Odell Thompson of Thompson Loan & Finance Co.

The new board will meet Oct. 30 for re-organization and election of officers. New board members take office Nov. 1.

Directors whose terms expire in 1954 are E. W. Barnhart, Dr. F. T. Merchant, John J. Ryan, Julian H. Walker and W. Leonard Young. Directors whose terms expire in 1955 include Jack R. Danner, Frank M. Foster, Philip E. Guthery, Charles D. Harmon and Carl H. Knirk. Directors whose terms expire Nov. 1 are Lester L. Dickey, Francis B. Huber, M. Paul Hunt, Henry Mickley and C. W. Smoot.

Hunt is president of the Marion Chamber of Commerce. Edgar W. Barnhart is vice president, Huber vice president, Hugh E Webster executive secretary, Guthery treasurer, E. E. Coldwell assistant treasurer and Jack E. Lautenslager assistant secretary.

Tellers of the election were Young, chairman, and John C. Turner, Clifford E. Hoch, Kelly R. Vance, Carl Dune, Roy C. Harper, H L. Rogers and Roy C. Holdridge.

MINOR FIRE REPORTED

No damage was reported in a fire Sunday at 8.39 p.m. which police theorized was caused when two signal lanterns were pushed into an open hole. The flares were set up at an excavation of the Marion Water Company at 652 E. Church St. The lanterns set fire to leaves in the hole. Police officers extinguished the burning leaves and reset the signals.

Students Riot At Iowa State

4,000 Celebrate Grid Victory Over Missouri

AMES, Iowa (AP)—A football victory riot of approximately 4,000 Iowa State College students wore itself out today after 80 police officers tried in vain with tear gas to put down the demonstration.

Traffic on the transcontinental Lincoln Highway had to be detoured for more than an hour after the students threw a road block of drainage tile across it

The students, celebrating a 13-6 homecoming football victory over Missouri Saturday, began demonstrating after their demands for a Monday holiday from classes were not met

Dr. James Hilton, president of the college, was out of town when the students marched on his home chanting "no classes." There were about 30 in the group

The students then marched through the sorority, fraternity and dormitory areas gathering reinforcements. After a second trip to Hilton's home again produced no response a sit-down strike on the highway followed.

Police Chief Orville Erickson said he used up all his tear gas in an unsuccessful effort to break up the demonstration. When tear gas shells were tossed, however, the students simply dispersed until the fumes drifted away.

Erickson summoned help from nearby counties and from the State Highway Patrol

Probe

(Continued from Page 1)

Carl Austin Hall, confessed kidnap-slayer, and Mrs. Bonnie Brown Heady here Oct. 6.

Hall was arrested by Lt. Louis Shoulders and Patrolman Elmer Dolan at a midtown apartment hotel on the tip of a taxi driver.

I. A. Long, board president, said Police Chief Jeremiah O Connell was asked to "intensify and broaden the police investigation of the case" following a special meeting of the commissioners

O'Connell said the probe would include police questioning of Shoulders and Dolan although the commissioners said, "We have no reason to believe any police officers connected with the case have not given us all the information they have."

Discrepancies Reported

The Post-Dispatch has reported it learned FBI agents had found a number of discrepancies in the police account of Hall's arrest and recovery of about $2,3,000 in ransom money from him

The newspaper said police records showed Hall was brought to a district police station following his arrest with two suitcases filled with money but that the FBI had determined no suitcases were brought with Hall to the station The newspaper said "more than an hour elapsed" after Hall was booked before the suitcases were brought in.

However, Shoulders said, "The bags with the money were delivered to the station at the same time as the prisoners."

Shoulders said that after Hall was booked he (Shoulders) took the two suitcases to a small room at the station and locked the door.

"I can prove," he said, "that the money I found in Hall's apartment was the same money I turned over to the FBI Where that money is will come out at the right time and when it does, I know Lou Shoulders will be in the clear. I'm not worried."

Stories Differ

The Globe-Democrat said last night Dolan told FBI agents he did not know the suitcases found in Hall's apartment contained the ransom money until about two hours after the arrest.

The Globe also reported Dolan told the FBI Shoulders left the police station in his private car shortly after Hall was brought to the station.

Shoulders, declining to affirm or deny the report he left the station, said:

"I can account for every move I made and the handling of that money whenever I'm called upon to do so and it will be only to the proper authorities — the police board or the chief—and it will not be the newspapers or the FBI."

15 Motorists Arrested by State Patrol

Fifteen weekend arrests were reported by the state highway patrol this morning.

Four persons posted bond for appearance in Municipal Court this morning on charges of crossing the yellow line. They were Robert Hart, 24, Toledo; Bernice Bristol, 40, Carey, Ind., Johanne Houser, 27, Fostoria; and Margaret Lather, 38, Toledo

These Days

By George Sokolsky

Nationalism remains the strongest mass motive in Europe and Asia Only in the United States does international ism find a popular following No European statesman can stand before his countrymen who ignores this nationalistic sentiment Since the end of World War II nationalistic propaganda has been intensified among every people except the American The Trieste problem can only be understood if viewed from this standpoint

SOKOLSKY

For several centuries, Trieste was the chief port of the Austro-Hungarian Empire It was an ancient city, founded perhaps at the time of the Emperor Vespasian of the Roman Empire At that time it was inhabited by Celts and Illyrian tribes

— —

IN THE COURSE of history Italians, Slovenes and Austro-Germans settled in Trieste and the population became, as in most port cities an assimilation of many races of man The present resulting breed regards itself principally as Italian with a large Slovene minority

The Adriatic has at times been an Italian sea That is not so today Trieste lies in Yugoslav territory part of the Istrian Peninsula which has, in its long history been held by the Roman Empire by Venice by the Austro-Hungarian Empire by Italy and by Yugoslavia Trieste being an excellent port was at one time of great commercial value to Austria it was tremendously important because it was the only Austrian outlet to the Adriatic and the Mediterranean

That importance does not exist today, either for Yugoslavia or for Italy Venice is of course a better Italian port and the Yugoslavs possess Fiume (now called Rijeka) and a long coastline Trieste is today not a place to fight over, but nationalism is

— —

ON THE OTHER hand Trieste was given to Italy by the Treaty of Paris in 1919 and was made into a free city in 1947 Here is a dot on the map which has for many years been a serious international problem because the Italians claim it as an Italian speaking city the Yugoslavs claim it because it is geographically part of Yugoslavia And anyone can start a fight and be called a liar by saying that it is Italian or Yugoslavian depending on who is in the audience

Now appear two problems Tito has since his break with the Russians, been building a Balkan federation In this effort, he has made considerable progress with Greece and Turkey He has been resisted in Bulgaria Rumania and Albania but in each of these countries there are Titoist elements

As a matter of fact the movement for a Balkan federation after World War II started in Bulgaria under Georgi Dimitrov head of the Third International who somehow died in the Kremlin after being instructed that he had made an error

— —

TITO HAS BEEN suffering strength because of the cordiality shown to him by Great Britain and the United States, which added to his prestige, even in the satellite countries Tito's difficulty now is that when the United States gives Italy A Zone in Trieste, Tito's prestige suffers some damage He knows that the Kremlin can take advantage of this situation to attack him in his own country where the people are extremely nationalistic and anti-Italian He had been looking forward to a break-away by a satellite state

On the other hand the last election in Italy showed that American prestige had fallen in that country since 1948 The pro-American Premier De Gasperi was virtually defeated and ultimately removed from power The Italian Communist party is enormously strong and curiously enough it is nationalistic The present government in Italy under Giuseppe Pella, is not sufficiently strong and needs some kind of victory

Pressure is put upon it to join the European Defense Community which is not absolutely necessary for Italy but Italy is needed by EDC While it might be of some profit for Italy to joint the Communists object and they can unseat the government

— —

SO THE United States makes the move of giving A Zone in Trieste to Italy, which strengthens Pella and may make it possible for him to put over membership in EDC but weakens Tito, whom we also need if Soviet Russia is not to be on the Adriatic

World leadership sure has got us into quandaries, problems, imponderables and uncertainties And it all costs money and keeps American boys away from home

Colorado Springs Daily Battles With Opposition Paper

COLORADO SPRINGS (AP)—The publisher of the Colorado Springs Free Press is using a full page ad in its opposition daily to charge its rival with printing 'untruths' about Free Press financial operations

Edwin P Hoyt, editor and publisher of the Morning Free Press bought the ad in the Gazette Telegraph The Gazette Telegraph is an afternoon paper published by Harry Hoiles of the Hoiles newspaper group, Freedom Newspapers Inc

His ad said the Gazette Telegraph printed 'misstatements' it carried a coupon urging subscription to the Free Press

The Hailes paper countered with a full page ad opposite the Hoyt ad offering $5 000 to Hoyt's favorite charity if Hoyt can prove the Free Press 'is not being financed by Unitypo, a subsidiary of the International Typographical Union which owns the Free Press building"

Hoyt's ad said the Free Press is not subsidized by the union and has not been since it was sold to me on Aug 1 1951

Inside Labor

By Victor Riesel

JOPPA ILL By the time this is on the streets, bloody war or a jittery peace may have come to this dusty corner of the world It is truly a front line of civilization and worth while living, not because men die in a labor war for power here but because we have been trying to build here which will throw juice into the uranium separation plants across the river

RIESEL

Neither war nor peace will settle anything here It's too late Over the road from the atomic output at Paducah to Cairo, Illinois the haven for Chicago Capone hoodlums and into this vast construction center angry roving pickets have driven in caravans of 600 to 700 autos This was the manner in which men led by the Iron Workers local union bitter William Sanders warned national AFL chiefs not to interfere with a month-old strike at the Joppa Atomic Energy power works

— —

HE ALSO WARNED that if anyone passed through his picket lines there would be mass killings as there had once been at nearby Herrin Ill in another labor war of an age long thought dead

So heavily armed cars of the state police and the county sheriff sit in the roadside sun The police were alerted not to take lightly the threats of Sanders long time tough boss of the regional AFL Iron Workers Local 595 and a leader of the Building Trades Council

There are many reasons besides the official one for Sanders strike But the basic one goes right to the gut of the thing which is corroding the AFL Building and Construction Trades Unions This basic reason accounts for racketeering for a terrified rank-and file for arrogance and power unknown in any other labor movement the world over

— —

THAT REASON is the unwatched unpoliced local autonomy of thousands of unions For decades, national labor chiefs have given their local nabobs the franchise for such power National union headquarters of such organizations as the Iron Workers or Martin Durkin's Plumbers and Pipefitters have issued thousands of charters to local men These little regional baronies then became the officials through whom all construction labor had to be hired They collected dues and paid per capita tax to their national leaders

In turn the national figures, too busy elsewhere to get into the feud, let the complicated system just grow And when the Atomic Energy Commission took on a contractor to get the big bomb works going Washington said, 'Produce, we don't care how'

Back in the early winter of 1951, one Atomic Energy contractor was told to put up a vast uranium separation plant in a little city named Paducah, Ky The contractor opened an employment office—and Bill Sanders' small Iron Workers local threw a picket line around it before the huge contractor knew what had happened Sanders said you hire through me It was an unwritten law He had the charter for the area The company complied It had to build plants for the safety of America

— —

SO IT WENT all over the area All the little business agents grabbed for a chunk of the dues and power as tens of thousands of workers moved in One of Sanders colleagues Louis Bradford Plumbers chief and head of the local Building Trades Council (Sanders was secretary), began charging out-of-town members $1 50 a man a day for the right to work The money went into the union treasury—at the rate of $6 000 a day for the 4-000 out-of-town brothers Finally after a year and a half the men revolted

They struck but hard, against the 'doby' system, as they called it That strike cost our atomic program some 400 000 man hours Then the Plumbers International Union chief Matty Durkin, ordered the doby system discontinued But no money was refunded When Durkin looked the other way and the men returned to work Bradford printed up booklets which looked like raffle tickets

He gave them to his shop stewards They went among the men and asked them to donate the $1 50 For this they got a slip and Bradford knew who was cooperating and who wasn't But the men threatened to strike again and Bradford gave up this choice bit of "dues' collecting

— —

EVERYTHIG DOWN here has been a grab bag Over in Cairo, where the mob influence still lingers, one Laborers Union chief had two taverns It always helped to drink his whisky and play dice there

Men became rich, and for this booty, they'd strike even the atomic plant on which some of the nation's safety rests Some 3 000 000 man hours have been lost as the local lads fought it out, as Sanders has fought to protect the franchise the Iron Workers national office gave him years ago—control of labor in that area

The time is long past for the top union officials to get out of their national offices and stop being absentee labor leaders—or we might lose more than a local labor war

Plain Stupidity

By Inez Robb

It's not every day that I come up with the right answer to any public question But I have the right answer today to How stupid can you get''

INEZ ROBB

The answer is that you can be stupid enough to expect on a technicality two innocent little boys from a public school and the ebv hand on a silver platter to the commies a priceless propaganda weapon to be used the world around to the dire injury of the United States

— —

THE COMMIES in a year of Sundays couldn't have invented a more damaging lie than the hard fact that the public school authorities of Toms River N J plan to give the heave ho to Michael and Robert Rosenberg

Michael 10 and Robert 6 are—God help them'—the only children of Ethel and Julius Rosenberg espionage traitors in the gift of our atom and hydrogen secrets to the U S S R

But no one has yet involved either Michael or Robert as infant accomplices No matter how deeply their parents are lost in treason nothing to deserve such harsh and senseless treatment

By admission of the Toms River authorities both kids are not only bright and well behaved but popular with their fellow students Pawns as these children are of the Communist party — pitiful pawns — the chief hope that they can grow up as such influential American citizens is normal attendance in our public schools

— —

NOW THEY ARE to be denied that salvaging experience at least in Toms River on the grounds that they are not the legally adopted children of the couple with whom they have been living for more than two years

Our own sense of decency and fair play should see to it that these boys get a square shake

Nothing is more revolting than the spectacle made by adults picking on innocent and helpless children And nothing is more stupid than delivering weapons into the hands of the sworn enemy

Think how the Communists must be rejoicing at this club with which to beat Uncle Sam 'Not only did they murder the parents the comrades will cry in the four corners of the earth 'but now they are hounding the innocent children left upon their destruction by one means or another

— —

PROPAGANDA is the sixth column of the Communists Without a leg to stand on, so far as truth and justice went, they still managed to make hay and trouble for Uncle Sam out of the Rosenberg case all over the world This latest incident is gasoline on the fire

Contemplate for a moment the financial report just filed by the National Committee to Secure Justice in the Rosenberg Case The committee by its own admission, spent almost twice as much on propaganda as in the actual legal defense of the Rosenbergs against the spy charges!

This committee by its own reckoning spent $71 815 for propaganda leaflets pamphlets, petitions and postcards while spending $29 541 for legal fees and expenses and another $11 323 39 for legal printing

— —

NEITHER the committee nor the Communist party is without funds now to exploit this inane move against Michael and Robert And it will be used to our damnation in every quarter of the globe

If ever two fellers need friends if ever kids needed a chance it's the Rosenberg boys That's the real issue

But it would also be futile and dandy if we paused for thought occasionally before handing the enemy a loaded gun

Sesqui Observance Set

Cleveland To Pay Honor To Famous Native Sons

Cleveland (AP)—Some of the boys who left the old hometown and gained fame in the big city began coming back today to take part in Ohio's sesquicentennial celebration.

The homecoming reaches a climax tomorrow with a parade and luncheon here highlighting the year-long birthday observance. Today many of the celebrities were to be feted in their hometowns.

Bob Hope, the ski-nosed comedian who started his career in Cleveland, will originate his new television program here tomorrow night as part of the ceremonies.

Other prominent Ohioans expected back are Eddie Rickenbacker, who became a World War One air ace and later board chairman of Eastern Airlines; Branch Rickey, vice president and genral manager of the Pittsburgh Pirates, and Dr Norman Vincent Peale, author and pastor of Marble Collegiate Reformed Church in New York City.

Out of about 60 invited here as "Famous Ohioans," many still live in Ohio. Thirty - one have promised to attend the luncheon The full list with the hometowns or counties includes:

Rickenbacker, Columbus, Rickey, Pike County; Dr Peale, Greene County; Earl Wilson, Mercer County, syndicated columnist Maj Albert Warner, Youngstown Vice president of Warner Brothers Pictures; James J. Nance, Ashtabula County; president of the Packard Motor Car Co.; Milton Caniff, Highland County, Cartoonist.

Charles F. Kettering, Loudonville, automobile inventor; Jesse Owens, Cleveland, former track star; Dr. Ralph W. Sockman Mount Vernon, author and pastor of Christ Church, New York City; Harry Stuhldreher, Stark County, member of Notre Dame's "Four Horsemen" and former football coach; Norman Thomas, Marion, Socialist party leader.

Blanche Thebom, Canton, Metropolital Opera star; Homer Rodeheaver, Hocking County, musical evangelist; Maj. Gen. Robert S Beightler, Union County, World War II commander of Ohio's 37th Division; Louis Bromfield, Mansfield, author; Ezzard Charles, Cincinnati, former world heavyweight boxing champion; Wilson Compton, Wooster, president of Washington State College; Harrison Dillard, Cleveland, track star

Harvey S. Firestone, Arkon, president Firestone Tire & Rubber Co; John Furbay, Mount Gilead, director of Trans-World Airlines; Johnny Kilbane, Cleveland, former world featherweight boxing champion; Gov. Frank J. Lausche; Charles Merz, Erie County, a New York Times editor; Don C. Miller, Cleveland, attorney and member of Notre Dame's "Four Horsemen"; Rabbi Abba Hillel Silver, Cleveland, Rabbi of the largest Jewish reform congregation in the United States; Stella Walsh, Cleveland, track star; Tony Trabert, Cincinnati, U. S. amateur tennis champion; George Trautman, Columbus, president of the National Assn of Baseball Leagues; Denton "Cy" Young, Tuscarawas County

8,000 Attend National Girl Scout Meeting

Annual Convention Held in Cincinnati; Cite Gain of Million

CINCINNATI (AP)—Three million girls and women will be clad in Girl Scout green by 1960, the organization's 32nd national convention was told today.

Mrs. Roy F. Layton, national president, said the increase from the present two million membership means the national scouting movement will have to step up its program in recruiting volunteer leaders and paid professionals.

"If we are truly to help meet the need of girls, we must be prepared not just for today and tomorrow but for the day after, the month after, and the years ahead," she said in a report prepared for delivery with the national board of directors

She said the Girl Scout movement grew rapidly from the time it was founded in Savanah, Ga., in 1912 because it helped the girls of 1912 to meet "new responsibilities and to live happier, more satisfying lives"

About 8,000 scout leaders and senior scouts are attending the convention.

The national organization has sent special organizers into the Columbia-Palouse area of the State of Washington, the Savannah River area in Georgia and South Carolina; Pike County, Ohio; Paducah, Ky., and San Diego, Calif., where influx of defense workers has occurred.

Today, 55% more students are in college than in 1940!

EDUCATION is becoming more and more important in the competition for good jobs and advancement. The number of college students reached a peak in 1949 under the G.I. Bill of Rights. However, the 2,116,400 students now enrolled mark an increase of 55% over 1940.

The increasing emphasis on education is just one of many important changes we've seen in recent years. More people are getting married—and at younger ages. We're raising bigger families. We're buying more homes than ever before. Our whole way of living is changing! This means we have much more to protect.

And life insurance is keeping pace and is constantly growing more flexible to meet our new needs.

For example—to meet the increasing interest of parents in sending their children to college, the life insurance companies have devised plans suited to a wider variety of family situations. Some are based on special educational policies, others on the family's present life insurance. All have the effect of assuring funds for college, whether the father lives or not.

More and more families are also using life insurance to provide a regular income at the death or retirement of the breadwinner. Others are using policies planned for particular needs, such as paying off the mortgage on their homes in case they do not live to complete the payments.

A suggestion: Have your needs or circumstances changed? Have you looked over your life insurance to see how it stacks up with your present way of living and the goals you and your family have set for yourselves?

Shakespeare Is Second

Bible Outsells All Other Books by Far

NEW YORK (NANA)—According to a report from the American Bible Society, the Bible is still the best seller. In a national poll it leads as the most interesting book, outselling "Mein Kampf's" best record by 200,000 copies per year in Germany as well as the two American best-sellers of last year—"Desiree" and "The Power of Positive Thinking."

The former, a colorful novel by Annemarie Selinko, sold some 101,661 copies in the trade edition by early September, and Dr. Norman Vincent Peale's worthy tome's figures are quoted by Prentice Hall, its publishers, as selling from 5,000 to 8,000 weekly.

—·—

OTHER FACTS OF interest from a publishing standpoint are that the Bible is the best-selling book of all time, with the works of Shakespeare second. The 1947 census (most recent) reveals that a total of 9,248,000 copies of the Bible and the New Testament were sold that year, almost two and a half times as many sales as in 1937, when 3,800,000 were sold.

According to the New York Times book review in 1952, the best-selling book of that year—excepting the Bible of course—was a little item first published 166 years ago, the Constitution of the United States.

Of the 300 languages and dialects now spoken, the Bible has been translated into approximately 269.

—·—

THE WORD "Bible" comes from the Greek word "Biblos," meaning sacred writings. The Old Testament was written in Hebrew and the New Testament in Greek with the exception of the Gospel according to St. Matthew, which was also written in Hebrew.

The Old Testament contains 39 books, 929 chapters, 23,214 verses, 592,439 words, 2,738,100 letters. The New Testament has 27 books, 260 chapters, 7,950 verses, 182,253 words and 933,380 letters. The name of Jehovah or Lord occurs 6,855 times in the Old Testament.

North America's first Bible to be printed was the Indian Bible of John Elliot, issued in Boston in 1661 and again in 1663. The first American Bible in English was to come out almost 90 years later in Boston, where it was printed in 1752. An order of Congress brought forth a second issue of this edition in 1781.

In 1950 the American Bible Society distributed a total of 11,056,584 books in 161 languages and 23 additional characters in the following categories: Bibles, 711,221; Testaments, 1,094,704; portions, 9,250,653.

—·—

IT IS ALMOST impossible to ascertain the number of motion pictures or stage productions that have been made dealing with Biblical subjects. However, starting with the days of the earlier D.W. Griffith spectacles such as "Intolerance" and "Judith of Bethulia," the C. B. De Mille offerings, "The Ten Commandments," "Sign of the Cross" and "King of Kings," and the many productions of "Quo Vadis" and "Ben Hur," we have in recent years seen "David and Bathsheba" and the current 20th Century-Fox smash hit, "The Robe." In all instances box-office figures have shown that Christianity pays off with the public. There are yearly hundreds of Bible films made and produced by the different denominations.

Many people ask if the Bible is copyrighted. Only new translations of the Bible are copyright on the King James version of the Bible rests perpetually in the Crown.

—·—

THE PROTESTANT and the Catholic Bibles differ considerably in the contents of the Old Testament. At the Council of Trent (1546-63) the Roman Catholic Church enumerated the books that should be regarded as "sacred and canonical" and consequently as parts of the Bible. This list comprises the present Catholic Bible and includes all but three—Esdras I, Esdras II, and the Prayer of Manasses—of the book and portions of books which are not found in the Jewish tradition of the Old Testament and which Protestants generally denominate the apocrypha. Accordingly the Catholic Bible comprises all the Old Testament books accepted as canonical by Protestants.

The chief difference between the Protestant and the Catholic Bibles is that the latter regard all but three of the so-called apocryphal books and parts of books as canonical and essential parts of the Scriptures, while the Protestants read them merely for inspiration and edification and do not use them to establish points of doctrine.

Band Boosters Form Group at Green Camp

GREENCAMP—A "Band Booster Club" was organized when parents of members of the Green Camp school band met recently. Mrs. Mildred Harper was elected president; H. Edward Flach, vice president; and Mrs. Elizabeth O'Hara, secretary-treasurer.

Mrs. Ethel Wasserbeck, Mrs. Hazel Pfeiffer and Mrs. Lucille Reynolds were named to serve on the hospitality committee.

One of the first projects of the club will be the purchase of new regulation band uniforms. They will meet monthly and will work toward creating further interest in the band and its members.

Miss Lenore H. Rice is the band director. The club will next meet on Nov. 24.

Here is a remarkable new idea in nutrition!

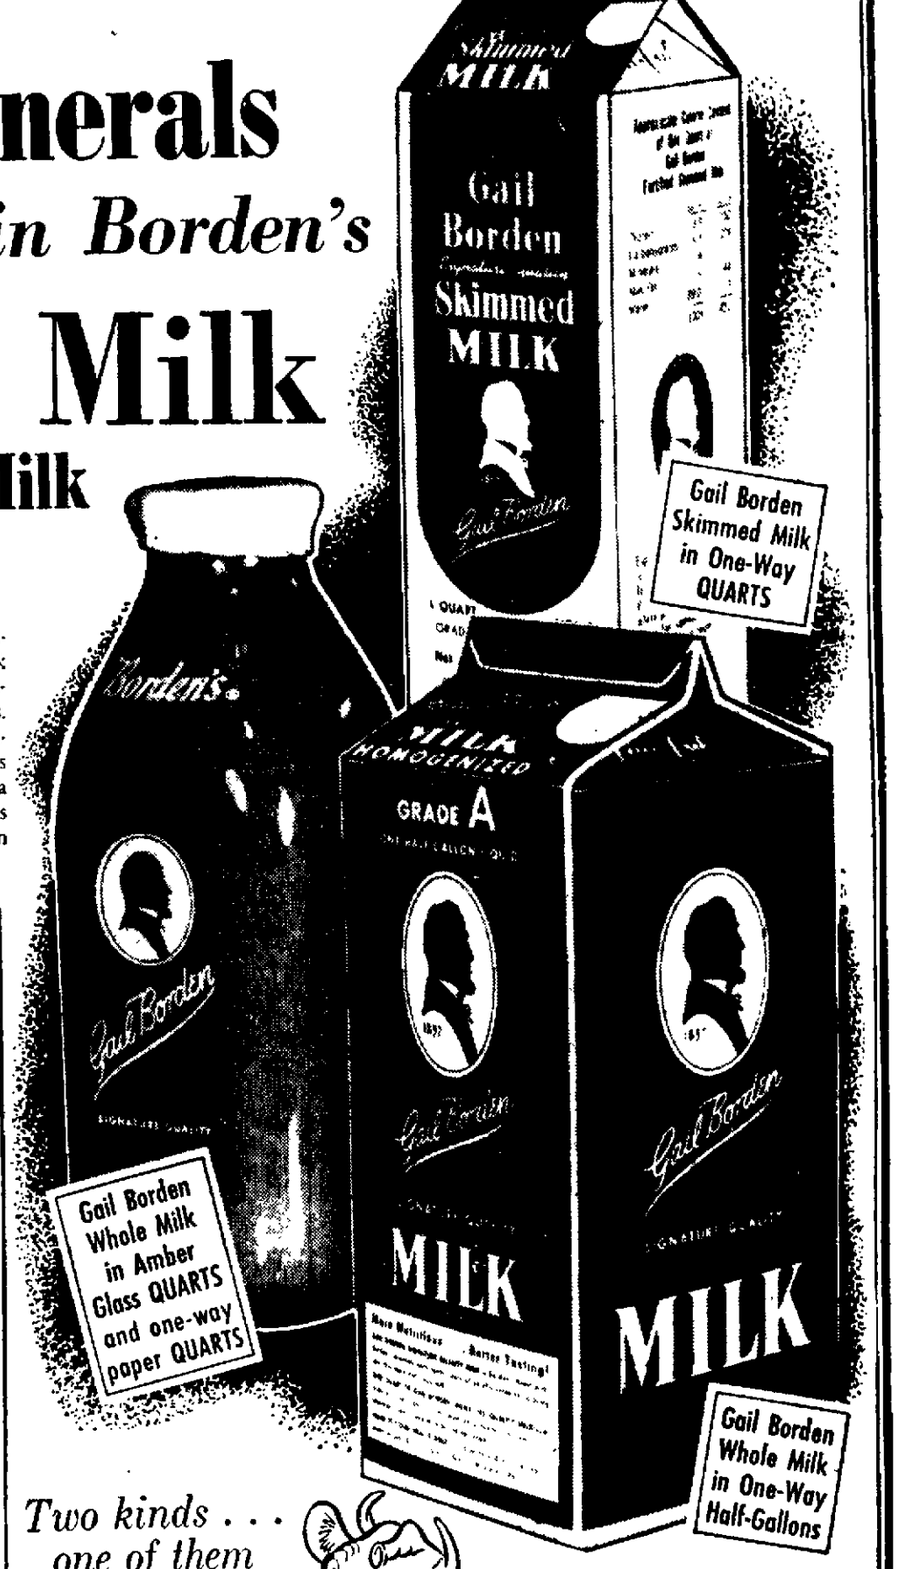
Now you can get your

Vitamins and Minerals

The easy, pleasant way—in Borden's

Gail Borden Milk

and Gail Borden Skimmed Milk



Gail Borden Skimmed MILK

MILK
Gail Borden Whole Milk in One-Way Half-Gallons

Just one quart a day

of either Gail Borden Whole or Skimmed Milk, brings you the minimum adult daily requirements of nine of the most important vitamins and minerals!*

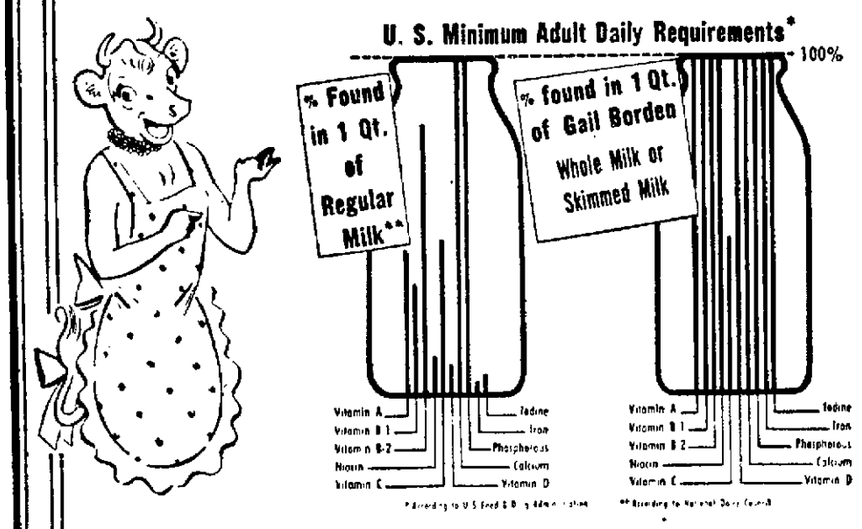
Medical and public health surveys show that many Americans suffer from vitamin and mineral deficiencies—even when spending more than average for food. Gail Borden vitamin and mineral fortified milk helps guard your family against such a lack.

A scientific triumph!

Nothing is added to Gail Borden milk except the nutrients naturally found in milk—but normally present in quantities usually too small for optimum human needs.

Science now makes it possible to add extra quantities of these essential vitamins and minerals to milk. The exact formula used in Gail Borden is the result of years of research—much of it by Borden's own world-renowned scientists.

This chart tells the story



This shows the percent of minimum adult daily needs of vitamins and minerals supplied by one quart of regular milk—and by one quart of Gail Borden Milk, either whole or skimmed.

Gail Borden is not fortified with vitamin C because this vitamin is unstable. It is found abundantly in fruits and vegetables.

Ask your doctor!

When your doctor questions the adequacy of the vitamin and mineral content of your diet, ask him about Gail Borden Whole or Skimmed Milk.

Two kinds . . . one of them just right for you!

Both kinds delivered to your door or at your favorite store

Light kept out . . . flavor and vitamins kept in!

This improved milk is protected by amber glass bottles and opaque one-way containers. The actinic rays of sunlight, even when indirect, can greatly harm the vitamin content and flavor of milk.

These containers screen out most of such harmful rays, helping to keep the full vitamin content and fine fresh flavor of Gail Borden Milk.

The biggest 1c value in town!

Gail Borden Milk costs just one cent a quart more than our regular homogenized milk. The same vitamin and mineral protection in capsule form would cost much more than this! And of course, Gail Borden Skimmed Milk is even lower in price. This is why we say Gail Borden is such a big value money-wise!

Gail Borden *Signature Quality* Whole Milk

Gail Borden is pure, whole milk . . . produced under ideal conditions . . . and especially guarded all the way from Borden-inspected farms to you. It is homogenized for even flavor and richness, and for easy digestability.

The fortification with extra vitamins and minerals does not change the flavor of Gail Borden Milk in any way whatever. As far as flavor is concerned, Gail Borden is just pure, fresh homogenized milk. But when it comes to nutrition, it is far more! It can be your extra margin of nutritional safety.

Everyone realizes the importance of vitamins and minerals in the diet—but many of us do nothing about it. Instead of eating what we need, we prefer to eat what we like. That's what makes Gail Borden so perfect for *your* diet . . . because most everyone likes milk. And even though you do not drink an entire quart every day—whatever amount you do drink gives you that much extra protection!

Gail Borden *Signature Quality* Skimmed Milk

Persons on a diet should be especially careful to get plenty of vitamins, minerals and proteins. When the amount of food is reduced, it becomes difficult to get enough of these essential "protective" nutrients. Yet your need for them remains just as high as ever!

Gail Borden Skimmed Milk solves this difficulty! One quart contains only 421 calories . . . but it will supply you with 100% of the minimum adult daily needs of nine out of ten essential vitamins and minerals . . . and in addition, 54% of the normal protein needs.

With Gail Borden Skimmed Milk, you can reduce—safely! First, of course, get the advice of your doctor. Then use Gail Borden to help plan a low-calorie diet with an extra margin of vitamins, minerals and proteins. Gail Borden Skimmed Milk contains extra amounts of non-fat milk solids—and these add to the *flavor* as well as the nutritive content. Gail Borden Skimmed Milk doesn't taste at all like ordinary "skim"!

Details Given In $100,000 Daylight Theft

WHEELING, W. Va. (AP) — Ohio County authorities were prepared to leave for Dallas, Tex., today to return two men involved in the $100,000 Sammons robbery last Tuesday.

The suspects, Harry H. Ward, 43, and Jimmy Fugitt, 34, both of Dallas, were to be given preliminary hearing in Dallas today If they chose to waive extradition, they will be returned to Wheeling immediately, Ohio County Prosecutor Joseph A. Gompers said

The third person involved in the daring daylight theft already is in Ohio County jail. He is Phillip G Anderson, 46, also of Dallas, who was returned from Lima, Ohio, where he was arrested on a tip from a still undisclosed woman informant.

All three have signed confessions, police said.

Anderson professed to be the mastermind of the burglary plot two years in the creation.

Asst. Prosecutor Don Wolf, who returned Anderson from Lima, said Anderson told this story in his confession:

He waited outside the home of Dr. W. P. Sammons in suburban Warwood while Ward and Fugitt stole the money. After a complicated exchange of cars, all drove to Columbus, Ohio, where they bought three suitcases.

In a wooded area near Columbus they transferred the money from the three metal boxes brought from the Sammons home. Then they left for Ft. Wayne, Ind., where they rented a motel room and divided the loot.

Anderson said the trio had no idea how much money they had, and that it was divided not by actual counting but placing it in piles He was given an approximate 10 per cent bonus for his knowledge of the property, he said.

Police have recovered most of the loot. With Anderson was found $36,435; $27,795 was found in Dallas and $30,210 in Corpus Christi, Tex.

How's Your Jungle Appeal

From Eddie Jaffe of Broadway comes a report on a new trend on the fringes of television, the TV hinterland, as it were, that may have escaped your attention. It has certainly escaped mine and, some instinct tells me, it will continue to do so.

J. CROSBY

"Do you know what a sponsor today demands of his TV program?" inquires Mr. Jaffe. "Before he even agrees to watch the TV program he is asked to buy, he demands to know what is available in tie-ins. Any colored photographs, self-liquidating premiums, danglers, games, buttons or promotional door-handles?

"The sponsor today who boasts about his ratings is a square. The hep sponsor, such as the one who bought "Ramar of the Jungle," is proudest because he can say that he's the only one who offers his viewers glow fangs. Glow fangs glow in the dark, give an eerie jungle effect, are flexible, non-toxic and virtually indestructible with no sharp edges!

-:-

"ALONG WITH THE GLOW fangs, to woo the kiddie fans, Ramar offers a record with authentic jungle sounds which include native drums, monkeys, lions and elephants; and a seven-by-five-inch card with a two-color picture showing the White Witch Doctor in a jungle setting.

"Any child can guarantee to drive his parents nuts playing this 'wierd, fascinating, thrilling and educational record,' as it's modestly described, for only a quarter.

"Then there's a four-color picture showing Ramar facing the beasts of the jungle with a .22 caliber rifle inscribed to 'all my friends' and signed by Ramar and Jon Hall (who are the same person.) Reviewing Ramar would be an awful waste of your time, but you certainly should review the Ramar tatoos which are moisture transfers applied to the skin with great ease and which can be washed off with water. There are three different tattoos complete with instructions.

-:-

"THE FAN, without leaving his house, can get a Ramar of the Jungle safari scout certificate size 8½ by 11. For the advertiser there are posterettes, die cut danglers and window streamers both vertical and horizontal—all to help the Witch Doctor spread jungle appeal.

"Jungle appeal is rapidly replacing sex appeal, the highly delighted and newly formed Television Programs of America has discovered. The oldest successful show in the world, according to TPA, is the circus. Its success, they feel, is based on the fact that a lot of people would rather see wild animals than Marilyn Monroe. This proposition is open to debate.

"In the meantime, the White Witch Doctor and his glow fangs and tattoos are selling bread, milk, cereal, beverages, potato chips, candy, nuts, jams, jellies and ice creams Ramar, in many markets, has ratings higher than top network programs, the ones that don't have glow fangs or tattoos to give away."

-:-

RAMAR IS NOT a network TV show but it's all over the place, playing in a total of 32 cities from New York to San Francisco. In Chicago, Ramar is up against Burns and Allen and has a better rating — 16.3 to 15.7. Ramar in the same city is also up against Groucho Marx but Groucho easily tops the White Witch Doctor.

Groucho, I've always felt, has a certain jungle appeal of his own and can fight Ramar on his own grounds. In Fort Worth and Dallas, Ramar has a better rating than "Dragnet" which is opposite it.

Supper Meeting Held By Camp of Gideons

A potluck supper preceded the meeting when the Marion Camp of Gideons met recently in the community room over the West Town Branch of the National City Bank. Guests were Rev. Clyde Wendell, pastor of Calvary EUB Church, and sons, Philip and Dannie. Rev. J. J. Barr, pastor of Christian and Missionary Alliance Church, Mrs. Lulu Corwin and Willard Goff.

Sheridan Severns presided for the meeting which was opened with group singing led by Clifford Ward, with Mr. Paul Zachman at the piano. Prayers were offered by Dwight Goff and Max Graham, and testimonies were given by E. J. Hissong and H. J. Klinefelter. Rev. Barr conducted devotions, speaking on "The Love of Jesus"

Wyandot County Women Hear National Officials

UPPER SANDUSKY — Republican women of Wyandot County met Thursday afternoon with Mrs. Joseph G. Kenan in this city.

There was election of officers with the following results: president, Mrs. Kenan; vice president, Mrs. Caroline Rieser; secretary, Mrs Roma Hughes, and treasurer, Mrs Katherine Heck.

At the dinner meeting in the evening, Secretary of the Interior Douglas McKay and Senator John W Bricker were the principal speakers. Tea was served following the business meeting. Mrs. Grace Peele presided at the table.

Vejprava Leads Barons to 5-3 Win Over Louisville

Speedy Forward Turns In First Hat Trick of Season

Gordon Vejprava, speedy front liner worker for the Marion Barons, pulled the hat trick Sunday afternoon when he scored three goals to lead the Barons to a 5-3 win over Louisville's Shooting Stars.

It marked the first International Hockey League win for the Barons. They dropped their opening game Wednesday night to the champion Cincinnati Mohawks.

Two additions to the Barons' roster gave the Marion club a higher defense than the one put on the ice in Wednesday's game and the score showed it. Steve Brklacich, a veteran defenseman, moved into the defense line to plug a gap and Joe Ingoldsby, leading scorer at New Haven last season, moved into a front line spot. Brklacich has played with St. Paul of the U. S. League, Cincinnati, when it was in the American League, and Vancouver of the Pacific Coast Hockey League. They fill the spots left open since Walt Samanski, Mac Beaton and Nick Dubick left the club.

The Barons and Shooting Stars hooked up in a defensive duel in the first period before Ingoldsby broke the ice with Marion's first counter. He hit the net after taking a pass from Wimpy Jones. The score came after 17 06 of play.

About half way through the second period, Vejprava took over. He took a pass from Paul Emms and scored at 11 22 and one minute and six seconds later he hooked in another. On his second goal, he was assisted by Coach Ott Heller and Emms.

Still not satisfied, the Barons kept driving and added a goal at 14.13 of the second period. Wimpy Jones was credited with the score with an assist going to Ingoldsby and Ken Schultz.

Louisville's first score came after 16 46 of the second period when Jack Sherban shoved the puck past Goalie Lou Crowdis during a mixup in front of the net. Assists were awarded Rolly Duranceau and Indian Joe Nolan.

The Shooting Stars came storming back in the third period to give the Baron defensemen a rough time. Sherban hit his second score after 5:15 had passed with another assist from Duranceau and Puddicomb. Ed Calhoun cut the Barons' lead to 4-3 with 17:45 gone by when he scored with an assist from Puddicomb.

Vejprava clinched the game with his third goal with 19:07 gone. He stole the puck at the middle marker and raced in to sneak the puck past Louisville's goalkeeper, Rolly Sarault.

Tightness of the new defensive alignment for the Barons showed in the number of saves registered by Goalie Lou Crowdis. During the first period when he shut the visitors out, he was forced to block the net only four times. He made eight saves in the second and eight more in the third.

The speedy forwards of the Barons, on the other hand, kept the Louisville goal tender busy. Sarault registered 12 saves in the opening period. He ended with a total of 27.

The Barons will meet the Milwaukee team here Wednesday night before making their first appearance on the road at Grand Rapids next Saturday night. They will entertain Grand Rapids here next Sunday.

SHORT SPORTS

By John Short

SHORT

A Marion gridder, Lloyd Williams, figures in a problem which Coach Ara Parseghian of Miami University has been mulling over since the start of the season.

The problem stems from the new limited substitution rule but many coaches throughout the country would give their right arms to have the same poser.

Parseghian, even though the football campaign is rapidly approaching its halfway mark, still hasn't selected a pair of starting guards. He has too many.

Last year, Williams and his mate Russ Giganti, were members of the defensive unit with Ralph Zurbrugg and Stan Jones handling the offensive work. This season the coach has rotated the two pair and has found the plan paying off.

In the Redskins' opener, the Miami mentor started Zurbrugg and Jones but after the first nine minutes shifted to Williams and Giganti. Both came up with a pass interception later in the game and before the action was over another pair of guards, Bob Messaros and Dave Haines saw a lot of action.

Parseghian has pointed out that each of the six have their strong points but movies of the Redskin games have showed minor miscues on the part of all of them.

He adds that Williams has a lot to learn about offensive football since he was assigned to all defensive action last season. He went on to say the six probably will round out the season under the present rotation plan. "Chances are they will play roughly equal amounts just as I've been shuffling them in practices," he said.

"I think I said play roughly in equal amounts," he grinned. "They'd darned well better play roughly or the thing will get settled fast."

TROUBLES, Jimmy Brown, hockey writer for the Louisville, Ky., Courier-Journal, decided last night he should have stayed at home. Brown decided Saturday afternoon to make the trip to Dayton to watch the Flyers take on Louisville. He remained in Dayton overnight, planning to come here for the hockey game yesterday.

Leaving Dayton shortly after noon, he drove to Marion. On his arrival here, he stopped to inquire directions to the Coliseum and then upon arrival there found the game over. The Louisville club plays all of its home games at night and Brown was under the impression all league teams followed that practice.

BOLDEN LOSES HIS SHIRT. Star halfback Leroy Bolden of Michigan State holds his shoulder pads as his shirt hangs in front of him after he was tackled by Indiana players in first period at East Lansing, Mich. Michigan State won 47-18. In background are Indiana players.

Hastings Wins County Title In Annual Golf Tournament

Bob Hastings won the Marion County golf championship yesterday when he fired a 77 in the final round to finish first in the annual tournament with a total of 153 for 36 holes.

Hastings received The Marion Star trophy.

Norm Withrow, who led at the end of last Sunday's first round with a 74, shot an 84 to place second with a 158. Third place went to Dick Ruby who had a total of 160.

Yesterday Hastings had a 40 going out and a 37 coming in. In the opening round he shot a pair of 38s.

Throughout the tournament no one broke the Country Club's par of 36 for nine holes, 72 for 18. No one was able to collect the dozen golf balls offered to the entrant who eagled any hole.

Each of the top 10 entrants received his choice of a gift certificate, golfing equipment or other merchandise.

Although 20 golfers entered the tournament, only 14 finished. Three didn't play yesterday's final round, and three others failed to turn in yesterday's scores.

Final standings were:

Hastings, 38-38-40-37-153; Withrow, 37-37-40-44-158; Ruby 40-40-41-39-160; Maurie Cornell, 42-40-42-38-162; Dick Owens, 40-41-42-39-162; John Dugan, 42-41-40-40-163; Alva Newell, 41-38-46-40-165; Warren Rowley, 43-41-42-39-165; Ben Wiant, 43-41-41-42-167; John Rife, 39-43-43-43-168; Don Burt, 47-46-40-42-175; Dutch Russell, 45-39-47-44-175; Coxie Weiss, 47-46-45-38-178; Al LaValley, 49-44-53-46-182.

Giants Whip Japanese

TOKYO (AP)—The New York Giants today beat a picked team of Japanese Professional baseball players 4-1 before 41,000.

It was the Giants' third victory in three starts on their 14-game exhibition tour of Japan.

Funeral Service Held For Ex-Major Leaguer

CLEVELAND (AP)—Funeral services will be held here today for James Delahanty, one of five brothers who played baseball in the major leagues.

Delahanty, who died Saturday after several months of ill health, had worked recently as foreman of a street paving crew. Of his other brothers, Edward, Thomas and Joseph all are dead, leaving Frank, now 72, as the last of the quintet.

Jim, an infielder and outfielder, broke into the majors with the Chicago Cubs in 1901 and later played with New York, Boston and Cincinnati in the National League.

He was traded to St Louis in the American League in 1907 and later played with Washington and Detroit. He ended his major league career with Detroit in 1912.

3 Powerhouse Teams Absorb First Whipping

NEW YORK (AP)—The road to college football's poorhouse is paved with the remains of teams that thought they were brimming over with wealth. Ask UCLA, Duke and Rice.

Here were three of the best teams in the country, all undefeated, before they tangled with Stanford, Army and Southern Methodist, respectively. Today, their hopes of appearing in postseason bowl games were all but shattered.

Proud UCLA, A defensive Titan that had allowed just seven points in ringing up four victories, was the favorite to win the Pacific Coast Conference title and appear in the Rose Bowl New Year's Day. But Stanford, one of the poor relations of the loop, beat them 21-20.

Now UCLA is faced with the problem of having to whip Southern California when they collide Nov. 21. Chuck Taylor's Indians did it the hard way too, coming from behind on a 20-7 deficit. Unheralded Bobby Garrett threw for all three Stanford touchdowns and converted all three.

"I've never seen a player dominate a game like Garrett did," said UCLA Coach Red Sanders.

Garrett completed 18 of 27 passes.

As for Duke, the Blue Devils came a cropper of Army 14-13 and now must hope that Maryland will lose somewhere along the way because the newly formed Atlantic Coast Conference permits only one team to play in a bowl.

The Army victory was its most notable since the cribbing scandal ruined its team three years ago. But the Cadets just did nip the Blue Devils. Bob Mischak had to haul down Duke's Red Smith on the 7 after the latter had run 73 yards in the closing minutes.

Rice had high hopes of winning the Southwest Conference championship and playing host in the Cotton Bowl. But Southern Methodist is better team than many observers thought, had other ideas and won it 12-7. That leaves Baylor still the team to beat in the loop. The latter swamped Vanderbilt 47-6.

Georgia Tech, which has the longest undefeated skein in the land—31 games with two ties—is in the uncomfortable position of having to face Notre Dame, the top-ranking team in the latest Associated Press weekly poll. The Ramblin' Wrecks warmed up to their mission by clubbing Auburn, hitherto undefeated, 366, while the Irish defeated Pitt 24-14. This will be the top game of the week.

Maryland shows no signs of cooperating with Duke in the Blue Devils' hopes of getting a post season bid. The Terps walloped North Carolina 26-0. They still have to face a couple of rough customers, Mississippi and Alabama, in their last two games, but they seem to be getting stronger as the year goes on.

Michigan and Illinois, Michigan State's two big threats to the Big Ten title, both won Saturday as did the Spartans, all three against league opponents.

Michigan turned back Northwestern 20-12; the Illini routed Minnesota 27-7, and State pulverized Indiana 47-18.

Southern California, the new favorite for the Coast title, slaughtered Oregon State 37-0 next faces California.

Illinois Rated Top Threat in Big Ten Race

CHICAGO (AP)—Undefeated aspirants to the Big Ten football title were three deep today as Illinois pushed pugnaciously up alongside Michigan State and Michigan.

And this powerful trio had to keep a wary eye on the doings of Wisconsin, a one-time loser which beat Purdue 28-19 in the conference opener for both teams.

All four teams have undefeated Big Ten records, although of the four Michigan State has been by far the most impressive.

The Spartans' 47-18 ramble over Indiana Saturday was their fourth straight win and their third in the conference. Michigan also has won four straight—two of them Big Ten games. Illinois has three wins, two of them in the conference, and a tie.

Wisconsin has won three all told but lost a non-league encounter with UCLA.

Coach Ray Eliot of Illinois still refuses publicly to concede his boys anything beyond "hope for the first division" but the Illini, in trimming a good Minnesota team 27-7 Saturday, proved themselves definite title contenders.

J. C Caroline and Mickey Bates maintained their terrific one-two ground assault that humbled Ohio State 41-20 in leading the Illini attack against the Gophers. Bates rammed 16 yards for one touchdown and caught a 26-yard pass for another. Caroline skipped 49 yards for a TD in totaling 205 yards running.

Michigan shows a tendency to drag in tough situations. Had it not been for Duncan McDonald's fine passing eye—good for three touchdown pitches — the Wolverines could have been beaten by Northwestern instead of emerging with a 20-12 decision.

In other games, Ohio State was lucky to escape with a 12-6 verdict over Penn and Iowa beat Wyoming 21-7.

Caledonia Nips WaldoGridders

Caledonia notched its first victory in Double M League play Saturday night on the Claridon field by edging winless Waldo 18-14. It marked the fourth straight loss for Waldo, making its debut in the six-man loop this season.

A 12-point spree in the second quarter was the margin of victory. After a scoreless first half, Caledonia scored twice in the period with a 15-yard pass from Layman to Belt accounting for the first score.

Sherer plunged two yards for the other score. Another pass from Layman to Noggle, good for 25 yards, resulted in a fourth period score.

Keith Augenstein passed to Delano Klingel for 15 yards and the first Waldo score. Rex Henry's drop-kick conversion gave the losers' eight points in the third quarter. Dave Noe hit Augenstein with an eight-yard pass for the other Waldo tally in the fourth quarter.

Waldo is at Chesterville Friday while Caledonia is at Claridon. Chesterville is sharing top spot in the Double-M League with LaRue with a 4-0 mark.

Bucks, Badgers To Tangle in Ohio's Top Tilt

By FRITZ HOWELL

COLUMBUS, Ohio (AP)—Ohio State cheered not too much by Saturday's 12-6 squeak past Pennsylvania, returns to the Western Conference title trail this week against Wisconsin's Badgers at Madison.

The Big Ten clash is a co-feature of the 21-game program facing Ohio teams, the other sending Ohio University's Bobcats against Miami's Redskins at Oxford in what should be the Mid-American Conference's chamionship game.

John Borton, Ohio State's balance-wheel quarterback who sat out the Penn game with a broken nose and twisted ankle, may not be ready for the Buck-Badger event—and his absence might be the difference. Wisconsin showed power Saturday by turning back Purdue 28-19, coasting in after amassing a commanding lead.

Ohio and Wisconsin have 3-1 records for the season, the Bucks having defeated Indiana, California and Penn while losing to Illinois. The Badgers dumped Penn State, Marquette and Purdue, but lost to UCLA. Wisconsin is 1-0 in the conference, and Ohio State 1-1.

Down at Oxford, Miami with a 2-0 Mid-American record, will attempt to turn back Ohio U. which is out front with 3-0. Miami has the state's best offensive and defensive records, having scored 175 and allowed 18 in 4 straight conquests, while Ohio U. has counted 105 and allowed 37 in winning 3 and losing to Harvard.

Ohio Wesleyan and Akron, tied at 3-0 at the top of the Ohio Conference, expect to stay up there this week after each turned in one-point wins Saturday. Akron nosed out Mount Union 16-15 for the Mount's first loss, while Wesleyan was a 21-20 winner over Denison. It was Wesleyan's second straight 1-0 conquest, and Denison's second one-point loss of the campaign.

Akron, statewide leader with 5 straight, goes against Wooster (1-2) this week, while Ohio Wesleyan meets Oberlin (1-1-1).

The Buckeye clubs won eight of 11 interstate games last week, and they have eight on tap this weekend. For the season the Ohioans have won 29, lost 25 and tied 3 with the out-of-state teams, but are behind in scoring 1,073 to 1,047.

Bates Tie Watkins For Scoring Lead

CHICAGO (AP) — Mickey Bates, half of Illinois' brilliant one-two ground punch, has popped into a first-place tie with Ohio State's Bob Watkins for the Big Ten football scoring leadership.

When Bates scored two touchdowns in Illinois' 27-7 conquest of Minnesota Saturday, it upped his personal total against conference and nonconference teams to 48 points. Watkins, who also as 48 scored one TD as the Buckeyes beat Penn 12-6.

Bates as scored at least one touchdown in every game.

J. C Caroline, Illinois' other running wizard, is in a fifth-place tie with five other players, all of whom have 24 points.

SEEK JAVELIN THROWERS

DARWIN — Watch out you javelin throwers. In the Northern Territory of Australia they're looking for a native aboriginal javelin thrower of Olympic standard. The search is being made by the New South Wales Amateur Athletic Association and the Northern Territory News (newspaper). Experts believe the aborigines' natural aptitude for spear throwing may give them a flying start with the javelin. Recently an aborigine named Gilbert made the best throw at the RAAF sports meet with a toss of 148 feet 9 inches.

Harding Runners Place Second in BG Relay Run

Harding High School's cross country runners came in second Saturday at the Bowling Green Relays held at the Bowling Green University Golf Course. The Prexies finished behind a well-balanced Springfield team.

Only six of 10 teams, copping first places in the 1952 state finals, appeared in the relays, Coach Ken Somerlot reported. The 10-mile race was run off in two-mile laps with each runner taking one of the laps.

The race started with the fifth man of each team leading off. When the first man in this lap finished the fourth man of each team started. Each lap was timed so that the winning team totaled the time of its five men.

Jack Blackburn of Worthington High School set the meet record with a time of 10 17 for his two-mile lap. He received a trophy for his winning effort.

Harding deliberated going into the meet since its top threat, Hugh Kinnamon, was sidelined by a cold. However, Somerlot decided the experience would benefit the squad and went ahead with plans for entering. Dallas Foos was entered as the Prexies' fifth man and it marked his first experience in a big meet. Dick Bolinger, Allen Green and Ben Dozier ran their best races of the year and Gene Monroe turned in his usual good performance.

Worthington placed third behind Harding. The three winning coaches, Bruce Oliver of Springfield, Somerlot and Les Eisenhart of Worthington were awarded trophies for their teams' efforts.

The Prexy harriers will visit Upper Arlington tomorrow afternoon and on Thursday at the Marion Country Club will entertain a strong Columbus West team.

Somerlot today reported the sale of 'mums' conducted by the cross country and track teams at the Friday night football game was a "huge success." He expressed the thanks of the runners for the cooperation of the fans who purchased flowers. Sale of the flowers provides funds for purchase of the trophies to be presented at the annual Harding Night Relays next May.

Two-Year Pact Signed

Big Seven, ACC To Send Teams to Orange Bowl

MIAMI, Fla. (AP) — November's wild scramble for bowl football teams was rapidly becoming a thing of the past today as the Orange Bowl entered into a pact with the Big Seven and Atlantic Coast conferences to 'supply its teams for the next two years

Oklahoma and Maryland are strong favorites to dominate the two leagues and meet here New Year's Day in the first game under the agreement.

The Orange Bowl action, long expected, leaves only three major bowl berths open for competitive bidding—two in the Sugar Bowl at New Orleans and one in the Cotton Bowl at Dallas.

Only the Sugar Bowl still selects both teams at random. The Cotton Bowl picks one at large to meet the Southwest Conference champion. The Rose Bowl is a closed corporation, matching teams from the Big Ten and Pacific Coast conferences.

The field from which the Sugar and Cotton bowls can choose was severely restricted by the Orange Bowl's success in tieing up the Big Seven and Atlantic Coast groups.

Among the major conferences, only the Southeastern still is wide open for bowl bids. The Southwest Conference runner-up is available and after that the choice is limited to the independents. The No. 1 independent, Notre Dame, last week squelched reports that it might reverse a long-standing policy against postseason games and take a Sugar Bowl bid.

Eight months of negotiations for the Orange Bowl pact were completed in Kansas City yesterday when faculty representatives of the Big Seven voted in favor of it. The Atlantic Coast group already had voiced its approval.

Orange Bowl President W. Bruce MacIntosh said there still are some details to be worked out, including whether the conferences will allow the same teams to play in the bowl two years in a row. However, Executive Secretary Reaves E. Peters of the Big Seven said that conference definitely would not let its champion play in the bowl on successive years

MacIntosh said the Orange Bowl would "accept the selection of each conference" for the game.

Under the agreement, each team has been guaranteed $110,000 for the 1954 game and $112,000 for the 1955 contest.

Science Shrinks Piles New Way Without Surgery

Finds Healing Substance That Does Both—Relieves Pain—Shrinks Hemorrhoids

New York, N. Y. (Special)—For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids and to stop bleeding—without surgery.

In one hemorrhoid case after another, "very striking improvement" was reported and verified by doctors' observations.

Pain was relieved promptly. And, while gently relieving pain, actual reduction or retraction (shrinking) took place.

And most amazing of all—this improvement was maintained in cases where doctors' observations were continued over a period of many months!

In fact, results were so thorough that sufferers were able to make such astonishing statements as "Piles have ceased to be a problem!" And among these sufferers were a very wide variety of hemorrhoid conditions, some of 10 to 20 years' standing.

All this, without the use of narcotics, anesthetics or astringents of any kind. The secret is a new healing substance (Bio-Dyne®)—the discovery of a world-famous research institution. Already, Bio-Dyne is in wide use for healing injured tissue on all parts of the body.

Now this new healing substance is offered in ointment form for hemorrhoids under the name *Preparation H.*® The price is only 98¢ a tube including an applicator. The name to ask for is Preparation H—at all drug stores. And remember—if not entirely satisfied—your money will be refunded promptly. ®Trade Mark

Olson Favored To Take Turpin In Title Fight

NEW YORK (AP) — England's Randy Turpin and San Francisco's Carl (Bobo) Olson meet for the middleweight championship Wednesday night in an international bout that has more puzzling angles than a dime detective story.

Here's Turpin, onetime conqueror of the great Ray Robinson and a former champion himself, rated a 2-1 underdog against the man who was stopped and beaten by Robinson.

Sure, Turpin was stopped by Sugar Ray in 10 rounds in their second fight but the strong invader seemed on his way to victory when Referee Ruby Goldstein halted the bout with eight seconds left in the round.

The feeling, of course, is that the 25-year-old British Negro has slipped since fighting Robinson and that Olson has come along at a rapid rate.

But more than that is the Turpin's strange training procedure. He has boxed only 28 rounds since he arrived in America a month ago.

Randy, himself, said that he will be in top shape and that too much boxing would make him stale. But Jack Solomons, the British promoter who always has had the big say in Turpin's career, has gone on record as saying he "doesn't approve" Randy's training methods.

"He hasn't boxed enough," said Solomons. "If it goes 15 rounds, Olson will win."

It could be that the British are playing possum. It could be, too, that Turpin has been doing some fighting in secret.

Olson, meanwhile, has been training in his usual fashion. He's been boxing regularly and hustling about in the gym. He figures to be in great shape, ready to go a full three minutes every round as he generally does.

First figured to be a sellout because New York will be blacked out of a Madison Square Garden fight sow for the first time, the bout may draw no more than 16,000 at prices ranging from $3 to $20.

Boy Struck by Pellet

A Marion boy became the victim of an unknown missile Saturday as he stood on Vine St. just south of Lafayette St.

Police were called to the Smith Clinic on E. Church St. at 12:20 p.m. where the boy, Jimmy Layman of 537 Courtland Ave. told them he was hit in the left shoulder by the object. Police say the boy heard no shot, and believe he was hit with a missile from a pellet gun. They are investigating the incident.

The boy was treated at the clinic and released.

BOYS SHOOT OUT LIGHTS

Three Marion boys were cited to appear before the juvenile officer after police found them shooting out street lights in front of 598 Cleveland Ave. Saturday night. The boys, aged 12, 15, and 16, were charged with firing an air pistol in the city.

Sink Redskins 30-14

Brownies Only Undefeated Club in Pro Grid Circles

By ORLO ROBERTSON

NEW YORK (AP)—The title picture in the Eastern Conference of the National Football League was much clearer today with Cleveland the only undefeated team. But not so in the Western Conference, where three teams are deadlocked for the lead, each with three victories and one setback.

Cleveland's Browns took undisputed command of the Eastern 30-14. But the Detroit Lions, 1952 champions, were dumped out of the unbeaten class by the Los Angeles Rams 31-19. And the San Francisco 49ers outscored the Chicago Bears 35-28. That left the Lions, Rams and 49ers in a tie for first.

In other games the New York Giants and Green Bay Packers came up with their first victories. The Giants beat the winless Chicago Cardinals 21-7 in their home and Green Bay turned back Baltimore 37-14. On Saturday night the Philadelphia Eagles whipped the Pittsburgh Steelers 23-7.

The Western Conference race could be straightened out a little this week end when the Lions travel to San Francisco. In their previous meeting a week ago, Detroit defeated the 49ers The Rams play host to the Chicago Bears, who could prove troublesome off the scoring punch they showed yesterday.

The Browns will be in New York as the favorites but these two teams are famous for playing close low-scoring games and now that Steve Owen's boys have discovered they can score it may mean trouble for Otto Graham and his cohorts.

The Redskins, playing before 33,963, the biggest Griffith Stadium turnout in five years, played the favored Browns to a standstill through the first 50 minutes and held a 14-13 lead midway through the final period. But Graham, who had plenty of trouble with his aerial attack, finally got his team moving goalward on a 58-yard drive eight minutes before the end of the game. The Redskins fumbled twice after that and the Browns cashed in for another touchdown and a third field goal by Lou Groza.

Washington slowed Otto for he completed only half of his passes for gains of 206 yards, compared with a 70 per cent completion mark and an average of 277 yards in each of Cleveland's first three games.

But Graham slipped over the big pass—a 25-yarder to end Dante Lavelli early in the last quarter to provide the points that won. The toss to Lavelli in the end zone capped a 58-yard drive that started right after Washington had taken a 14-13 lead when Jack Cloud intercepted a flat pass from Graham and ran it 25 yards to a touchdown.

The Browns then cashed in on two Washington fumbles for a touchdown and a field goal to boost their margin in the last part of the final quarter

Bill Willis recovered a fumble by fullback Harry Dowdan, Washington's 39, and Graham got in a 20-yard running gain. Three line bucks by Billy Reynolds put over a Cleveland touchdown, the payoff play covering nine yards.

Lennie Ford's rush caused Jack Scarbath to fumble two plays after the kick-off and George Young recovered for Cleveland on Washington's 9. This time the Redskins held, and Groza booted his third field goal of the game from the 23.

Groza booted a nine-yarder for the only points scored by either team in the first quarter.

Washington stepped in front 7-3 on the first play of the second period on a 61-yard pass play, Scarbath to Hugh Taylor who outran Ken Konz and made the catch on the Browns' 25. The Redskins completed only four other passes in the game, and those added up to a net of only 26 yards.

Norm Van Brocklin tossed touchdown passes of 40 and 45 yards and set another with his aerial magic in leading the Rams to their victory over the Lions before 55,772 fans.

The Bears took a quick 21-point lead over the 49ers but that was all their scoring until late in the game and after two Frisco touchdowns in each of the final two quarters had given the 49ers a 35-21 bulge.

Chuck Conerly let loose with a 60-yard pass to Ray Pelfrey and set up another touchdown with two long heaves as the Giants made their home debut before 30,301 spectators. Conerly completed 10 of 15 aerials for 174 yards.

A crowd of 18,713 saw the Packers cash in on three breaks at the expense of Fred Enke in beating the Colts.

TECH HAD THREE COACHES

ATLANTA, Ga. (AP) — Georgia Tech has had only three regular head coaches in the school's football history. John W. Heisman led the Yellow Jackets from 1904 through 1919. William A. Alexander piloted the squad from 1920 through 1944. Robert L. Dodd, present coach, has been at the helm since 1945.

Minor League Owners Seeking Greater Power

DALLAS (AP)—Texas League club owner Dick Burnett said today he thought great progress had been made toward getting changes in the baseball laws that will "give the minor leagues a chance to survive"

Burnett, owner of the Dallas club, called a meeting attended over the weekend by presidents and representatives of 23 minor leagues and representatives of six major league clubs.

The minor leaguers approved legislation that would give them a greater voice in the framing of baseball laws, bring about an unrestricted draft, pay the players part of their purchase or draft price, allow them to waive the draft, raise the price of the draft for the lower minors (class B down to D), return restrictions to radio broadcasts and telecasts of major league games in minor league territory and create a revised minor league agreement.

These amendments are to be submitted to the National Baseball Convention in Atlanta Nov. 30-Dec 3, and Burnett said he was confident of their being accepted by major leagues.

Hearing of Suit Begins in Court

$20,000 Sought as Result of Fatal Crash

Selection of jurors to hear a $20,000 damage suit filed against the New York Central Railroad Co. began this morning in Common Pleas Court.

The suit was filed in March by Edwin L. Mitchell, administrator of the estate of McClellan Miller, as a result of a fatal collision between an automobile in which Miller was a passenger and the defendant's train. The collision took place at a crossing in LaRue on Nov. 5, 1951, at 4 40 p m.

Also killed in the accident was Braden A. Meadows, driver of the automobile. Miller, a retired brakeman for the Erie Railroad, made his home with Meadows northwest of New Bloomington.

An hour earlier, the same train truck an automobile driven by Miller Key of near Marion at an alley crossing between N. Main and N Prospect Sts. to the rear of the Millard Hunt Co. Key's escape from death was termed "miraculous" by accident observers at that time.

Acting as counsel for the plaintiff are the law firms of Strelitz, Halberstein and Mitchell of Marion and Bowers, Feightner and Palmer of Huntington, Ind. Ralph E. Carhart and Robert O. Stout represent the railroad.

1,000 Persons Visit Dedication of New Green Camp School

Over 1,000 persons toured the new $295,000 elementary school in Green Camp Sunday afternoon, following dedication services of the building.

Speaker at the dedication program was Walton B. Bliss, executive secretary of the Ohio Educational Association, a former Green Camp School superintendent.

Gifts presented to the school during the dedication included a flag for the stage of the auditorium and a flag for each of the six classrooms in the elementary building from the G. I. Post No. 584, American Legion, clock for use in the auditorium, presented by the president of the 1953 graduating class, Gene Marsh, and several pieces of gymnasium equipment given anonymously.

Student Council members served as guides for the tour of the building which followed the dedication

Construction of the building began in May, 1952, and was completed in time for school this fall.

Oats, Barley, Rye To Stay Under Support

Benson Reported To Have Decided To Keep Props Under Prices

WASHINGTON (AP)—Secretary of Agriculture Benson was reported in congressional circles today to have decided to continue price supports on oats, barley and rye—a move which would counter one phase of reputed farm dissatisfaction.

Such a decision by Benson, expected to be announced soon, would be aimed at reassuring farmers as the winter grain planting season starts against the possibility of disastrous price drops later.

Could Quiet Critics

It might also have the effect of lessening criticism of the secretary, who has been reluctant to approve the present high level price support program. That criticism built up new steam over the weekend.

Announcement of continued supports for prices of minor grains might be interpreted in the farm belt as indicating that Benson is in line with President Eisenhower's statement that the principle of price props must be retained in the new farm program to be sent to Congress early next year.

The congressional informants who told of Benson's decision asked not to be named.

The minor grains now are being supported at 85 per cent of parity under an order of the previous Democratic administration. Some members of Congress said it was possible that Benson might even raise this to 90 per cent, the level at which wheat and corn and some other farm products are supported.

Fixed Percentage

Parity is a calculated price level said by law to give producers a fair return on their products in relation to prices they pay for things they buy. Farmers may get government loans at the fixed percentage of parity if market prices drop below those levels.

The Agriculture Department, meanwhile, foresaw an end to another farm problem: a decline in cattle prices which has persisted for more than a year.

The department said in a summary of the situation that prices in 1954 are not expected to average lower than this year, but are not likely to regain their levels of a year or two ago.

Benson's political troubles were emphasized over the weekend when two Republican members of Congress—Sen. Young (ND) and Rep. A. L. Miller (Neb)—said it is time for Benson to be replaced in te Eisenhower Cabinet.

Claims Confidence Lost

Young said in an interview that Benson ought to quit the Cabinet "because he has lost the confidence of the farmers." Miller, appearing on a television program, said the secretary has become "a symbol of lost confidence."

Sen. Hunt (D-Wyo) agreed with Miller. Rep. Curtis (R-Neb), appearing with them and Rep. Patman (D-Tex) on the program, defended Benson and said, "We are advancing on the farm front."

Miller said Benson may be the victim of "propaganda that he is doing something to the farmer," and he declared:

"Benson's staying on depends a great deal on the President's success in reassuring the farmers, the cattlemen and others that their interests and welfare will be protected, not only now but in the future."

Strong sentiment for continuation of the present price support program was found among members of the House Agriculture Committee, now sampling farmer views in the Midwest.

State Highway Patrolman Killed

CINCINNATI (AP) — State Highway Patrolman Earl W. Casterline, 25, of Silverton, Hamilton County, was injured fatally this morning when his cruiser was struck by a Pennsylvania Railroad passenger train.

The accident occurred on Kemper road a mile west of Rt. 125 near Sharonville. It was the second fatal accident at the crossing in two weeks.

Casterline, who has been a member of the patrol for 18 months, died shortly after being taken to General Hospital. He had been assigned to the new patrol station on Kemper road near Rt. 42 since Sept. 8.

County Patrolmen Elmo Koeniger and Harold Ross said the approach to the tracks is clear and he could not assign any reason for the accident.

Casterline suffered a skull fracture, a fractured back and internal injuries.

2 DIE IN LORAIN

LORAIN, Ohio (AP)—Two National Tube Co employes died in weekend accidents. John S. Goddard, 46, was found dead Saturday along the Nickel Plate Road tracks where he had been struck by a train John W. Wilson, 65, a National Tube electrician for 30 years, was electrocuted at work Friday when he touched a 6,600-volt wire.

PROPOSED AMENDMENTS TO THE CONSTITUTION OF OHIO

1

BOND ISSUE FOR HIGHWAYS

Proposing to amend article VIII of the constitution of the state of Ohio to authorize the issuance of revenue bonds up to five hundred million dollars, the proceeds thereof to be used to provide adequate highways in Ohio.

Be it resolved by the General Assembly of the State of Ohio, Three-fifths of the members elected to each house thereof concurring therein, that there shall be submitted to the electors of the state of Ohio, in the manner prescribed by law, at the general election to be held on the first Tuesday after the first Monday in November, 1953, a proposition to amend Article VIII of the constitution of the state of Ohio by adding thereto immediately after section 2b of said Article a new section as follows:

ARTICLE VIII

Sec. 2c. **The state may contract debts not exceeding five hundred million dollars for the purpose of providing moneys for acquisition of rights-of-way and for construction and reconstruction of highways on the state highway system. Not more than one hundred twenty-five million dollars of the debt authorized by this section shall be contracted within any calendar year, and no part of such debt shall be contracted after the thirty-first day of March, 1962. The principal amount of any part of such debt at any time contracted shall be paid in substantially equal semi-annual or annual installments, beginning not later than eighteen months after such debt is contracted, and in such number of installments that the entire debt shall be discharged not later than the year 1972. Securities evidencing the debt authorized by this section shall bear interest and shall be sold upon such terms as may be prescribed by law. Both the principal of such debt and the interest thereon shall be exempt from taxation by this state or by any taxing subdivision thereof. Moneys raised under the authority of this section shall be expended only to provide adequate highways, including the acquisition of rights-of-way and including participation therein with the federal government, municipal corporations, counties and other legally authorized participants, but excluding the costs of planning and supervision by the state. All construction shall be done by contract as shall be provided by law. No part of such proceeds shall be appropriated except to meet the requirements of programs or schedules of acquisition of rights-of-way, highway construction and reconstruction which the Governor, or other highway authority with the concurrence of the Governor, shall submit to the General Assembly before such appropriations are made. Such appropriations shall be made only for major thoroughfares of the state highway system and urban extensions thereof. The debt contracted under the authority of this section shall be paid by revenue bonds issued by the state of Ohio as provided by law, secured by a pledge of moneys derived from fees, excises or license taxes, levied by the state of Ohio, relating to registration, operation, or use of vehicles on public highways, or to fuels used for propelling such vehicles, and a sufficient amount thereof shall be set aside each year, before any other distribution is made, to pay the interest on the outstanding debt and principal of such debt becoming due in that year, without other appropriations, but according to regulations to be established by law.**

The General Assembly shall meet on the second Monday in January, 1954, for the sole purpose of enacting laws pursuant to this section.

Be it further resolved, That at the election herein designated for submission of this amendment to the electors of the state of Ohio, the same shall be placed on the official ballot in the manner prescribed by law and shall be designated as follows:

YES	To amend Article VIII of the constitution of the state of Ohio to provide adequate highways in Ohio and to issue revenue bonds in an amount not to exceed five hundred million dollars to provide funds therefor.
NO	

And be it further resolved, That the required publication of the said proposed amendment shall be made and the form of ballot to be used in said election for the submission thereof shall be prepared by the secretary of the state of Ohio in conformity with the above provisions. If a majority of the electors voting on said amendment be declared according to law, to have voted in favor thereof, the Governor of the state of Ohio shall make proclamation thereof forthwith.

Sept. 28; Oct. 5,12,19,26,1953.

2

STATE BOARD OF EDUCATION

Proposing to amend section 4 of Article VI of the constitution of the state of Ohio, to create a state board of education with power to appoint a superintendent of public instruction, and to abolish the existing office of superintendent of public instruction appointed by the governor.

Be it resolved by the General Assembly of the State of Ohio, Three-fifths of the members elected to each house concurring therein, That there be submitted to the electors of the state for their approval or rejection at the general election to be held on the first Tuesday after the first Monday in November, 1953, a proposal to amend section 4 of article VI of the constitution of the state of Ohio, to read as follows:

ARTICLE VI

Section. 4 *** There shall be a state board of education which shall be selected in such manner and for such terms as shall be provided by law. There shall be a superintendent of public instruction, who shall be appointed by the state board of education. The respective powers and duties of the board and of the superintendent shall be prescribed by law.

SCHEDULE

At such election above referred to, the foregoing proposal shall be placed on the official ballot in the manner provided by law in such form as the secretary of state may designate.

If the votes for the proposal shall exceed those against it, the foregoing shall take immediate effect and existing section 4 and article VI of the constitution shall be repealed and annulled. The superintendent of public instruction, in office when the foregoing amendment takes effect, shall continue therein until the superintendent of public instruction for whom provision is made under a foregoing amendment shall have been appointed and shall have qualified.

Sept. 28; Oct. 5,12,19,26,1953.

3

MILITIA FOR ALL MALE CITIZENS

Proposing to amend section 1 of Article IX of the constitution of the state of Ohio relative to militia duty for all male citizens.

Be it resolved by the General Assembly of the State of Ohio, Three-fifths of the members of each house concurring therein, that there shall be submitted to the electors of the state, in the manner prescribed by law, at the general election to be held on the first Tuesday after the first Monday in November, 1953 a proposition to amend section 1 of Article IX of the constitution of the state of Ohio as follows:

ARTICLE IX

Sec. 1 All *** male citizens, residents of the state, being eighteen years of age, and under the age of forty-five years, shall be enrolled in the militia, and perform military duty, in such manner, not incompatible with the Constitution and laws of the United States, as may be prescribed by law.

SCHEDULE

The above proposal shall be placed on the official ballot in essentially the following form:

For the Elimination of the word "white" from section 1 of Articles IX	YES
For the Elimination of the word "white" from section 1 of Article IX	NO

If a majority of the electors voting on the foregoing proposed amendment adopt the same it shall become a part of the constitution of the state of Ohio and existing section 1 of Article IX of said constitution shall thereupon be repealed.

Sept. 28; Oct. 5,12,19,26,1953.

4

ELECTION OF MILITIA OFFICERS

Proposing to repeal section 2 of Article IX of the constitution of the state of Ohio relative to election of officers of the militia.

Be it further resolved by the General Assembly of the State of Ohio, Three-fifths of the members of each house concurring therein

That there shall be submitted to the electors of the state, for their approval or rejection at the election to be held on the first Tuesday after the first Monday in November, 1953, a proposal to repeal Article IX, Section 2, of the constitution of the state of Ohio. Said proposal proposes to amend the constitution of the state of Ohio by repealing Section 2 of Article IX, which reads as follows:

ARTICLE IX

Sec. 2. Majors General, Brigadiers General, Colonels, Lieutenant Colonels, Majors, Captains and Subalterns, shall be elected by the persons subject to military duty, in their respective districts.

SCHEDULE

The above proposal shall be placed on the official ballot in such form as the secretary of state shall prescribe. If the votes for the proposal exceed those against it, section 2 of Article IX of the constitution of the state of Ohio shall be repealed.

Sept. 28, Oct 5,12,19,26 1953.

5

CONFLICTS WITH U. S. CONSTITUTION

Proposing to amend section 1 of Article II and section 27 of Article II of the constitution of the state of Ohio to correct conflicts with the constitution of the United States relative to ratification of constitutional amendments and to election of United States senators.

Be it resolved by the General Assembly of the State of Ohio Three-fifths of the members of each house concurring therein

That there shall be submitted to the electors of the state, for their approval or rejection at the election to be held on the first Tuesday after the first Monday in November, 1953, a proposal to amend Article II, section 1, and Article II, section 27, of the constitution of the state of Ohio to read as follows.

ARTICLE II

Sec. 1. The legislative power of the state shall be vested in a General Assembly consisting of a senate and house of representatives but the people reserve to themselves the power to propose to the General Assembly laws and amendments to the constitution, and to adopt or reject the same at the polls on a referendum vote as hereinafter provided. They also reserve the power to adopt or reject any law, section of any law or any item in any law appropriating money passed by the General Assembly, except as hereinafter provided; and independent of the General Assembly to propose amendments to the constitution and to adopt or reject the same at the polls. The limitations expressed in the constitution, on the power of the General Assembly to enact laws, shall be deemed limitations on the power of the people to enact laws.

***

Section 27. The election and appointment of all officers, and the filling of all vacancies, not otherwise provided for by this constitution, or the constitution of the United States, shall be made in such manner as may be directed by law, but no appointing power shall be exercised by the General Assembly except as prescribed in this constitution ***, and in these cases, the vote shall be taken "viva voce."

SCHEDULE

The above proposal shall be placed on the official ballot in such form as the secretary of state may prescribe. If the votes for the proposal exceed those against it, this amendment shall take effect and existing section 1 of Article II and section 27 of Article II of the constitution of the state of Ohio shall be repealed.

Sept. 28, Oct. 5,12,19,26,1953.

N.Y. Stock Quotations

NEW YORK (AP)—The stock market slipped slightly today without uncovering any signs of weakness.

The decline was not surprising to Wall Street because of the vigorous nature of the advance last week. Profit-taking after sustained advances always is anticipated.

Price changes covered a range of about a point either way.

Railroads were lower on balance as were the oils, motion pictures, Chemicals, and coppers. Other sections of the list were mixed or steady including steels, motors, and utilities.

Among lower stocks were Pennsylvania Railroad, Sinclair Oil, American Telephone, Kennecott Copper, American Cyanamid, Bethlehem Steel, and Boeing.

Higher were New York Central, Standard Oil (NJ), Union Carbide, Youngstown Sheet & Tube, and Goodrich.

STEVE CANYON By Milton Caniff

HERE THEY ARE! OH, ARE YOU ALL RIGHT?
HOMER, HONEY, A WONDERFUL MAN CARRIED ME AWAY FROM THE FIRE!—AND I DON'T EVEN KNOW HIS NAME!
WHICH MAN?
THIS ONE, DADDY!
THIS MAN IS HANDCUFFED!
WHY? WHO IS HE?
MISTA CONSUL HALL, HE IS A RUSSIAN SPY WHO CLAIMS TO BE AN AMERICAN MOUNTAIN CLIMBER RETURNING HOME!
OWW-W-W! I KNOW WHO HE IS! I'VE BEEN EXPECTING HIM! MR CANYON, IF I AM NOT REASSIGNED TO THE ISLANDS OF THE MOON AS A RESULT OF THIS, I HOPE YOU WILL BE OUR GUEST!
OUR GUEST WHERE, DADDY, DEAR? THE CONSULATE IS BURNING DOWN!
MILTON CANIFF
